Dear Frank Bosscha:

Subject: For Information only - Disclosure for Agency Dissolution – Nil Report

The Public Sector Compensation Transparency Dissolved Public Sector Bodies Regulation requires disclosure of compensation for members of an agency as soon as practicable following the dissolution of the agency.

Via Ministerial Order 39-2021 signed May 31, 2021, Ministerial Order 38-2001 for the Wildlife Predator and Shot Livestock Compensation Committee has been rescinded. A Nil Report (in the form of this letter) will be posted on the Environment and Parks website to provide the required disclosure.

To the best of my knowledge and belief,

- There were no employees of the Wildlife Predator and Shot Livestock Compensation Committee who earned any compensation and severance in 2021, and
- There were no members of the above public sector body who received any amount of compensation or severance, became entitled to severance, or received non-monetary benefits in 2021.

Yours truly,

Mark Heckbert
Provincial Wildlife Conflict Specialist
