Telephone Keypad

Not all keypads are the same. Use this keypad as a reference.

Letters are entered with two numbers, the first identifies the individual key on which the letter is printed, and the second indicates whether the letter is the first, second, third or fourth letter that appears on that key. For example, the letter R appears on the number 7 key and it is the third letter on that key, so R would be entered as 7, 3.

Authorization Status

You can call the IVR system to find out if an authorization has been entered into the AADL system, and whether the authorization is active, expired or suspended.

Follow the Get Started instructions.

When prompted Press 4 to choose Authorization Status.
When prompted Enter the authorization number from the form (six or seven characters, a combination of letters and numbers).

If the authorization form has been received by AADL, the IVR system will tell you:

OR
The authorization is currently active.

OR
The authorization is currently suspended*.

OR
The authorization expired on (date).

If the authorization form has not been received by AADL, the IVR system will tell you:

“I’m sorry, the information you requested was not found.”

You now have the option to:
Check the status of another authorization — press 1.
Return to the main menu — press 2.

* Suspended: The authorization form has been received, but AADL is unable to process the information.

The IVR system does not indicate the status of the items on the authorization. Please contact the appropriate benefit clerk for this
