

Watercourse Crossing Program File Transfer Program Instructions

The Watercourse Crossing Program has set up an FTP site for you to upload your stream crossing data. This is a secure site and will require an external ADS id to access the folders.

Link to access

Use this link for the external ADS id:

[https://securexnet.env.gov.ab.ca/cgi-bin/not_logged_in?DACs_ERROR_CODE=902&DACs_VERSION=1.4&DACs_FEDERATION=SRD&DACs_JURISDICTION=SECUREXNET&DACs_HOSTNAME=securexnet.env.gov.ab.ca&DACs_USER_AGENT=Mozilla%2F5.0%20\(Windows%20NT%2010.0%3B%20Win64%3B%20x64\)%20AppleWebKit%2F537.36%20\(KHTML%2C%20like%20Gecko\)%20Chrome%2F67.0.3396.79%20Safari%2F537.36&DACs_REQUEST_METHOD=GET&DACs_ERROR_URL=https%3A%2F%2Fsecurexnet.env.gov.ab.ca%2Fpcs%2F](https://securexnet.env.gov.ab.ca/cgi-bin/not_logged_in?DACs_ERROR_CODE=902&DACs_VERSION=1.4&DACs_FEDERATION=SRD&DACs_JURISDICTION=SECUREXNET&DACs_HOSTNAME=securexnet.env.gov.ab.ca&DACs_USER_AGENT=Mozilla%2F5.0%20(Windows%20NT%2010.0%3B%20Win64%3B%20x64)%20AppleWebKit%2F537.36%20(KHTML%2C%20like%20Gecko)%20Chrome%2F67.0.3396.79%20Safari%2F537.36&DACs_REQUEST_METHOD=GET&DACs_ERROR_URL=https%3A%2F%2Fsecurexnet.env.gov.ab.ca%2Fpcs%2F)

Instructions to create or update login information

Hit the “Manage your External ADS ID” to create an ID or change your password

Once you have conformed your Login, continue with next steps below.

- SFTP Login information:
- Login Information:

To transfer files, users can use the following information with a SFTP compatible program (such as FileZilla, WinSCP, etc.):

- Server/Hostname: sftp2.gov.ab.ca
- User ID: your GOA or EXTERN ADS id
- (GOA users must log in with goa/ or goa\ in front of their user id, i.e. goa\first.lastname)
- Password: (normal GOA password)
- Port: 22
- Server Type (if applicable): SSH / SFTP

For example, login information for goa\hari.prasain may look like below:

For additional information, you can refer to our User Guide:

<https://extranet.gov.ab.ca/techinfo/interug/ftssh.html#sftp>

Once you login, you will see in your Folder on the FTP site is a blank database for you to populate. Please upload the data in the standards provided. There is an .XML and data base design document in your folder for reference. You can use the simple data loader in ArcCatalog to populate the Stream Crossing database.

For security and privacy, you should only have access to your designated folder on the FTP site.
