

# Working Well Workshop Schedule | Fall 2021

Register today for a live, online (Zoom) water well management workshop.

Just like the popular in-person workshops, these FREE, live, online workshops are hosted by local municipalities and community-based organizations and presented by the Working Well Program with technical expertise provided by staff from Alberta Agriculture and Forestry, Alberta Environment and Parks, Alberta Health Services and licensed water well drillers. All workshops start at 6:30 PM.

If you live in or own property in one of these municipalities and have a water well on your property, register for a virtual workshop today.
