

Working Well Workshops | Winter 2021

Register today for a live, online (Zoom) water well management workshop.

Just like the popular in-person workshops, these FREE, live, online workshops are hosted by local municipalities and presented by the Working Well Program with technical expertise provided by staff from Alberta Agriculture and Forestry, Alberta Environment and Parks, Alberta Health Services and local, licensed water well drillers. All workshops start at 6:30 PM.

If you live in or own property in one of these municipalities and have a water well on your property, register for a workshop today.
