COVID-19 INFORMATION

GUIDANCE FOR BINGO HALLS

Overview

Under current Chief Medical Officer of Health Orders, businesses and entities are required to:

- implement practices to minimize the risk of transmission of infection among attendees;
- provide procedures for rapid response if an attendee develops symptoms of illness;
- ensure that attendees maintain high levels of sanitation and personal hygiene;
- comply, to the extent possible, with the COVID-19 General Relaunch Guidance, this guidance, and any other applicable Alberta Health guidance found at: https://www.alberta.ca/biz-connect.aspx.

This document has been developed to support bingo hall operators in reducing the risk of transmission of COVID-19 among attendees (including workers, volunteers, patrons, and the general public). The guidance provided outlines public health and infection prevention and control measures, specific to this setting.

This document and the guidance within it is subject to change and will be updated as needed. Current information related to COVID-19 can be found: https://www.alberta.ca/covid-19-information.aspx.

COVID-19 Risk Mitigation

COVID-19 INFORMATION

GUIDANCE FOR BINGO HALLS

- Anyone with symptoms of COVID-19; with a history of international travel in the last 14 days; or with close contact with a confirmed case of COVID-19 in the past 14 days must remain at home.

- Hand sanitizer stations, with at least 60% alcohol content, should be provided in clearly marked locations at the entry and exit, and throughout the hall.

- Organizers should make every effort to encourage respiratory etiquette (e.g., coughing or sneezing into a bent elbow, promptly disposing of used tissues in a lined garbage bin) is followed.

To support public health contact tracing efforts in the event that a staff member, volunteer or patron tests positive, operators should consider collecting the names and contact information of patrons, staff and volunteers on shift.

- Providing information is voluntary for patrons. An organization must obtain an individual’s consent and notify them about the purpose and legal authority for the collection.
  - Any personal information that is collected for COVID-19 contact tracing can only be used for this purpose.

**Physical Distancing**

There is no cap on capacity for bingo halls, as long as there is a **distance of at least 2 metres or appropriate barriers** between all attendees that are not members of same household or cohort.

- To facilitate physical distancing, consider:
  - Establishing an online system for patrons to RSVP to attend at a specific time or event.
  - Offering options for remote participation (e.g., telephone, video conference), in particular for patrons who are at greater risk of severe disease, including people over 65 years of age and people with chronic medical conditions.
  - Implement seating plans that facilitates physical distancing, or use barriers, between players.
  - Aisles should be wide enough to allow room for people to maintain physical distancing. Consider using one-way traffic flow to help maintain distancing.
  - Giving verbal reminders to observe physical distancing.
  - Where possible, establishing different entry and exits from the bingo facility.
  - Controlling and staggering entry into, and exit from, the bingo hall (e.g. by dismissing individuals by household or section, rather than all at once).
  - Identifying areas, such as lobbies, where crowding and bottlenecks are common, and using volunteers, staff, or barriers to redirect people who may gather in these areas.
Using directional arrows to enable required physical distancing when entering and exiting the aisles.

Distancing requirements must also be applied:
- In washrooms in the case of urinals and/or sinks.
- At stationary sales stations (markers for 2 metre distancing at stations).
- At the cash office.
- In staff and volunteer only areas, such as lockers, storage and/or eating areas.

Floor stations must be equipped with protective shields.

Breaks for staff and volunteers should be staggered to avoid over-crowding in areas designated for staff and volunteer use.

Develop strategies to minimize the handling of objects between multiple staff, volunteers and patrons (such as microphones, bingo cards, bingo dabbers) and ensure frequent cleaning and disinfecting of these objects.

Cleaning and Disinfection

In addition to the cleaning and disinfecting recommendations found in the General Relaunch Guidance, operators should:

- Develop and implement procedures for increasing the frequency of cleaning and disinfecting of high traffic areas, common areas, staff rooms and public washrooms.
  - Maintain cleaning logs and an inventory of supplies.
  - Respond immediately to sanitation concerns.
- A set rotation for cleaning and disinfecting high-touch areas (e.g. countertops, tables, tills, debit machines, calculators, and bathrooms) should be put in place with a sign-off sheet to monitor compliance.
- All occupied tables, chairs and stations should be cleaned and disinfected after every event. This includes:
  - Volunteer stations.
  - Cashier stations.
  - Tables occupied by patrons.
- Enhanced cleaning and disinfecting of E-Bingo devices is expected. Where applicable, every effort should be made to sanitize E-Bingo devices after each patron vacates the machine.
- Hand-held microphones should not be shared. This includes between event announcers, emcees and entertainers/performers.
  - Podium or stand microphones can be shared, but should not be touched by speakers.

To preserve the integrity of the equipment, the specific cleaning solution used for E-Bingo devices is to be approved by AGLC Gaming Division and align with Alberta Health Services’ Public Health Recommendations for Environmental Cleaning of Public Facilities.
# COVID-19 INFORMATION
## GUIDANCE FOR BINGO HALLS

| Retail and Food Service | • Retail businesses within bingo halls, such as gift shops, must adhere to the [Guidance for Retail Businesses](#).
| | • Restaurants, cafes, bars, and pubs located within bingo facilities must adhere to the [Guidance for Restaurants, Cafes, Pubs and Bars](#).
| Live Performances | Singing, playing wind instruments or performing dance in close proximity to others are considered to be higher-risk activities, and should be carefully managed:
| | • Organizers of these activities should adhere to the guidance for [singing and vocal performance](#) and [instrumental music](#).
| | • **Singers and wind instrument musicians must keep 2 metres away from other performers and individuals at all times.**
| | • In indoor settings, groups should not sing or play wind instruments for more than 30 minutes at a time, with a 10 minute break afterwards to allow for air exchange in the room.
| | • Singers/conductors should wear masks indoors both when singing and not singing.
| | | o A solo singer or vocalist can preform without a mask if alone in a dedicated space or room (e.g., a constructed acrylic plastic room).
| | • Wind instrument musicians should cover the bell of their instrument with thin, tightly woven fabric covers while playing.
| | • **Karaoke should not occur at this time.**
| | • Audiences at performances should be strongly discouraged from singing along.
| | • Informal singing activities should be avoided.
| | • Hand-held microphones should not be shared. This includes between event announcers, emcees and entertainers/performers.
| | | o Podium or stand microphones can be shared, but should not be touched by speakers.
| Screening and Response Plan | • Post [signs](#) that instruct those who are required to isolate to not enter.
| | • Consider implementing active screening of patrons and staff for symptoms of fever, sore throat, cough, runny nose or difficulty breathing.
| | | o Bingo associations and operators may choose to use [Alberta Health Daily Checklist](#).
| | | o The Alberta Health Services [COVID-19 Self-Assessment tool](#) can be used to arrange testing.
| | • Develop a rapid response plan that sets out a fast-action plan for operators when a staff member or client shows symptoms or tests positive for COVID-19.
| | • Staff should be familiar with and follow the rapid response plan if an attendee starts feeling symptoms during a shift. This should include:
| | | o Immediately isolating the attendee from others.
COVID-19 INFORMATION

GUIDANCE FOR BINGO HALLS

- Cleaning and disinfecting all surfaces that may have come into contact with the symptomatic attendee.
- Requiring hand hygiene and masking of the attendee.
- The attendee must isolate as soon as possible.
