Grade 6 English Language Arts Provincial Achievement Test

General description

The *Grade 6 English Language Arts Provincial Achievement Test* is composed of two parts—*Part A: Writing* and *Part B: Reading*, each worth 50% of the test total.

Part A: Writing

Part A: Writing consists of two writing assignments—one narrative and one functional—developed to be completed in two hours; however, students may have up to four hours to complete the test should they need it. For the first 10 minutes of the two hours, students may discuss both assignments with classmates in groups of two to four or think alone about the prompts. Students will engage in this discussion time without teacher participation. During this discussion time, students may record their ideas on the planning pages provided. The allotted test time provides students with time for planning, drafting, and revising both the narrative and functional writing assignments. Students may take up to four hours to complete the test.

Those students for whom a dictionary or thesaurus is a familiar reference tool are encouraged, but not required, to use a dictionary or thesaurus during the editing phase of their writing. However, excessive use of a dictionary throughout the test may interfere with a student’s ability to complete his or her writing.

Students may use **print versions** of commercially published dictionaries, bilingual dictionaries, picture dictionaries, and a commercially published thesaurus when completing *Part A* **only**.

Students may do their writing using a computer. For information about using word-processing technology to complete the written components of the achievement test, see the [General Information Bulletin](#).

Part B: Reading

Part B: Reading (multiple choice) is developed to be completed in 60 minutes; however, students may take up to two hours to complete the test should they need it. The test consists of 50 multiple-choice questions based on reading selections from fiction, nonfiction, poetry, and visual media. Students record their answers on a tear-out, machine-scorable answer sheet.

Students may **not** use a dictionary, a thesaurus, or other reference materials when completing *Part B: Reading*.

If a word that warrants definition is used on a test, it will be defined on the page on which it appears.

Description of Grade 6 English Language Arts provincial assessment standards

The following statements describe what is expected of Grade 6 students at the acceptable standard and the standard of excellence, based on outcomes in the [Grade 6 English Language Arts Program of Studies](#). These statements represent examples of the standards against which student achievement is measured. It is important to remember that one test cannot measure all the outcomes in the Grade 6 English Language Arts Program of Studies.

Acceptable standard	Standard of excellence
<p>Students who meet the acceptable standard are able to</p> <ul style="list-style-type: none"> • communicate information and ideas for a specific audience • use words and expressions that convey relevant, general meanings • organize concrete, factual materials containing straightforward ideas • recognize some complex techniques of literary structure and organization, such as cause and effect and flashback • read relatively short, simple selections of poetry and prose, fiction, and nonfiction, and identify the main idea, sequence of events, key details, author’s purpose, and imagery • use textual clues and prior knowledge to associate the meaning of words and phrases in straightforward text • consistently answer literal idea, detail, and relationship questions; occasionally understand implied ideas, details, and relationships 	<p>Students who meet the standard of excellence are able to</p> <ul style="list-style-type: none"> • consistently establish an appropriate focus for communication, and select ideas and language to suit different purposes and audiences • use words and expressions that convey purposeful, specific meanings • analyze and evaluate ideas received from a wide variety of print and non-print materials representing many perspectives • recognize complex techniques of literary structure and/or organization, and apply them to their own writing • deal effectively with abstract and complex details and ideas found in longer, sophisticated selections of poetry and prose, fictional and nonfictional • use textual clues and prior knowledge to associate the meanings of words and phrases in complex or unfamiliar text • readily answer literal as well as implied idea, detail, and relationship questions

Part A: Writing

Section I of *Part A: Writing* consists of a picture prompt that students are asked to respond to in the form of a story.

Section II of *Part A: Writing* requires students to write for a specific audience and to fulfill a specified purpose within a given context. The functional writing assignment requires students to write a news article.

For both sections of *Part A: Writing*, students will be able to remove the writing prompts from the writing booklet and keep the prompts in front of them while they plan and write. Each section includes a page labelled Planning and lined pages for the students' writing. Students are asked to produce only one copy of their work. They are encouraged to make revisions and corrections directly on this copy. Because of the limited testing time, it is felt that students benefit most from spending their time composing and revising their work rather than from perfecting a "good copy."

Important Reminders

In order to facilitate valid and fair marking for all students during the July marking session, it is important that teachers

- have students plan their writing only on the page provided in the booklet
- follow the procedures for scribing papers, as outlined in the [General Information Bulletin](#)
- follow the procedures regarding classroom materials, as outlined in the [General Information Bulletin](#)
- not write anything in the booklets; for example, marks and rationales awarded at the school, spelling corrections, or interpretations of words and/or sentences written by their students

Students whose writing is unrelated to the task presented in Part A: Section II—*Functional Writing* will be awarded a score of **Insufficient**.

Blueprint for Part A: Section I—Narrative Writing

The blueprint below shows the reporting categories under which summary data will be reported to schools and school authorities.

Reporting Category	Description of Writing Assignment	Standards
<p>Content* (selecting ideas and details to achieve a purpose) Students select ideas, events, and details to support their purpose. Students describe characters and setting using details that are appropriate for the context established.</p> <p>Organization* (organizing ideas and details into a coherent whole) Students organize their ideas to form a unified composition. Students establish connections or relationships among events, actions, details, and/or characters to support their purpose.</p> <p>Sentence Structure (structuring sentences effectively) Students control sentence structure and use a variety of sentence types and sentence lengths to enhance communication.</p> <p>Vocabulary (selecting and using words and expressions correctly and effectively) Students choose words and expressions to convey meaning appropriate for context, audience, and purpose.</p> <p>Conventions (using the conventions of written language correctly and effectively) Students use conventions accurately and effectively to enhance communication.</p>	<p>The narrative writing assignment requires students to respond to a picture prompt that is included in the test booklet. Students are to respond to the prompt by writing a story that the picture makes them think about.</p>	<p>Students' achievement in each reporting category will be described according to the following descriptors:</p> <p>Excellent</p> <p>Proficient</p> <p>Satisfactory</p> <p>Limited</p> <p>Poor</p> <p>Insufficient</p> <p>The marker can discern no evidence of an attempt to fulfill the assignment, or the writing is so deficient in length that it is not possible to assess content.</p>

***Content** and **Organization** are weighted to be worth twice as much as each of the other categories.

Blueprint for *Part A: Section II—Functional Writing*

The blueprint below shows the reporting categories under which summary data will be reported to schools and school authorities.

Reporting Category	Description of Writing Assignment	Standards
<p>Content* (thought and detail) Students organize and develop ideas for a specified purpose and audience.</p> <p>Content Management (using the conventions of written language correctly and effectively) Students communicate clearly and effectively by selecting words and phrases appropriate to their purpose. Students demonstrate control of sentence structure, usage, and mechanics.</p>	<p>The functional writing assignment requires students to write to a specific audience for a specified purpose within the context of a news article.</p>	<p>Students' achievement in each reporting category will be described according to the following descriptors:</p> <p>Excellent</p> <p>Proficient</p> <p>Satisfactory</p> <p>Limited</p> <p>Poor</p> <p>Insufficient</p>

Local marking

Before returning the tests to Alberta Education, classroom teachers will be able to mark students' writing using the scoring guides contained in this bulletin, or those that are provided in the 2020 Scoring Guide, Exemplars, and Rationales that are delivered with the test. All papers will be marked centrally in Edmonton in July.

Locally awarded marks submitted to Alberta Education will be used as the first reading of a student's response. Local markers are to use the **For Teacher Use Only** section on the back of the *Part A: Writing* test booklet to record their marks by filling in the appropriate circles. The "School Code" and "ACCOMMODATIONS USED" sections should also be completed (see accommodations in the [General Information Bulletin](#) for more information). If a teacher wants to know how his or her locally awarded marks compare with the marks that the tests received when marked centrally, then he or she must create a three-digit identification number and enter it in the section labelled "ID No." It is important that no two teachers from the same school use the same identification number. To facilitate fair and valid assessment of all students during both local and central marking, **teachers must not** mark or write in student booklets. Teacher-created scoring sheets, which may be used during local marking, are **not** to be included in student test booklets.

Teachers have approximately one week to return the tests to Alberta Education. The papers will then be marked centrally by Alberta Education as the second reading. Both marks contribute to the student's final mark. In the case of a discrepancy between the two marks, papers will be adjudicated by a third reading, which will determine the final mark that the paper is awarded. In this way, valid and reliable individual and group results can be reported.

Papers that are **not marked locally** by teachers will be marked centrally only once. At least once a day, all markers mark a copy of the same paper for inter-rater reliability. After central marking has been completed and school reports have been sent to the respective schools, teachers who submitted their marks with an identification number will receive a confidential report on their marking. This report is called the Local Marker Report and includes the locally awarded mark, the centrally awarded mark, a third-read mark if applicable, and the final mark.

To assess locally those students with special test-writing needs, specifically a scribed response (test accommodation 5) or a taped response (test accommodation 10), teachers are to refrain from scoring **Conventions** for *Assignment I: Narrative Writing* and **Content Management** for *Assignment II: Functional Writing*.

To support local marking, Alberta Education will provide samples of student writing that exemplify the scoring criteria with the test materials. These exemplars are not to be shared with students and must be returned to Alberta Education with the tests. Throughout the school year, teachers can refer to [Examples of the Standards for Students' Writing](#) on the Alberta Education website under Provincial Achievement Tests. Writing by Grade 6 students, along with scoring criteria, is posted at this location. Teachers can also access the rubrics used to assess Grade 6 English Language Arts writing under [Scoring Guides](#).

A total score for a student's writing may be calculated by following the procedure on the next page.

Calculating local marks

To determine a student's mark, convert the word descriptors to the following numeric values:

Excellent = 5

Proficient = 4

Satisfactory = 3

Limited = 2

Poor = 1

Use the following information to assign the score for each student's test:

Narrative Writing

- Assign a score of 1 to 5 for each of *content*, *organization*, *sentence structure*, *vocabulary*, and *conventions*.
- Multiply the scores for *content* and *organization* by 2 as these categories are worth twice as much as the other categories.

Maximum score possible for Narrative Writing = 35

Functional Writing

- Assign a score of 1 to 5 for each of *content* and *content management*.
- Multiply these scores by 2.

Maximum score possible for Functional Writing = 20

Total *Part A: Writing* score

1. Add the narrative and functional scores

Total score for <i>Part A: Writing</i>	
Narrative Writing	___/35 (63.6%)
+ Functional Writing	___/20 (36.4%)
= Total score	___/55 (100%)

The mark for *Part A: Writing* is worth 50% of the total mark for English Language Arts.

Teachers may make a photocopy of a student's writing from the English Language Arts *Part A: Writing* test for inclusion in a portfolio of the year's work. Copies can also be made for parents who request them.

Information for teachers participating in central marking

The Provincial Assessment Sector will contact superintendents in the spring for their nomination of markers. The teachers selected will reflect proportional representation from the various regions of Alberta.

To qualify for nomination by a superintendent, a prospective marker must satisfy the following conditions:

- have a valid permanent Alberta Professional Teaching Certificate
- have taught the course within the past three years
- be currently employed by a school authority or private school
- be available on all scheduled days

Markers will be contacted in May, and the list of markers will be finalized no later than the middle of June. Group leaders will meet the day before the marking session for training.

Each year, many more teachers are nominated to mark than are needed. There must be a balance of first-time and experienced markers; regional representation by zone, school authority, and school. Unfortunately, not everyone whose name is submitted is selected.

Because the time allotted for marking is limited, markers are often asked to mark on Saturday and Sunday. The marking floor is open from 8:15 a.m. to 4:30 p.m., and markers are expected to be available to mark during those hours.

Preparing Students for the *Grade 6 English Language Arts Provincial Achievement Test*

Suggestions for preparing students

The best way to prepare students for writing the provincial achievement test is to teach the curriculum well and to ensure that students know what is expected. Many of the skills and attitudes that support test writing are, in fact, good skills and strategies for approaching all kinds of learning tasks.

Teachers are encouraged to familiarize their students with the format of both *Part A: Writing* and *Part B: Reading* by working through the questions from previously released achievement tests.

All *Part B: Reading Readings and Questions* test booklets are secured and must be returned to Alberta Education.

All unused or extra Grade 6 English Language Arts *Part A: Writing* test booklets are released following the May administration of the test and may be kept at the school.

Special-format practice tests

To give students an opportunity to practise provincial achievement test-style questions and content in Braille, audio, large print, or coloured print versions, Alberta Education produces special-format practice tests for all subjects that have a provincial achievement test. Alberta schools with registered Alberta K–12 students may place orders for these tests. Braille versions are available in English and, by request, in French. All tests are provided free of charge, but limits may be placed on order volumes to ensure access for all students.

For the greatest benefit, special-format practice tests should be written under conditions similar to those of the corresponding provincial achievement test. The same rules regarding the use of resources and devices should be followed.

Braille versions must be returned to Alberta Education after use.

Suggestions for writing the test

Part A: Writing

- *Plan your time carefully.* Use all the time available to you to read the assignment carefully and to think about what you are being asked to do; to plan your writing so that it is focused, unified, and coherent; and to proofread your writing.
- *Read and listen to all the instructions carefully and do what the assignments ask you to do.* The time you spend reading and thinking about the assignments is time well spent. Many students find that highlighting or underlining key words in the assignments helps them to focus on what is expected.
- *Plan your writing using the pages provided.* You should choose a planning strategy that helps you to focus your ideas.
- *Use your reference materials.* You are allowed to use print versions of a commercially published dictionary and a commercially published thesaurus when writing *Part A* only. Use a dictionary to look up the meanings of words that you want to use but are not completely sure about and to ensure that you spell words correctly. Use a thesaurus to find a more precise word for the context you are developing, but be careful not to overuse a thesaurus.
- *Keep in mind the characteristics of effective writing.*
 - Awareness of audience (appropriateness of tone and use of correct language)
 - Completeness of information (enough detail to fulfill purpose)
 - Relevance of information (all details pertain to the purpose)
 - Clarity of information (all details are specific and easily understood by the reader)
- *Proofread your work and correct errors directly on your first draft.* You should double-space your writing in order to allow you to make corrections more easily.

Part B: Reading

- You may **not** use a dictionary, a thesaurus, or other reference materials when writing Part B.
- Read each selection and think about each question.
- Read the material using the strategy that works best for you. You should either
 - read the selection and think carefully about it before you try any of the multiple-choice questions associated with the reading selection **OR**
 - read the questions first and then read the selection, keeping in mind the questions you will need to answer.
- Each set of multiple-choice questions is designed to take you back through the reading selection in a certain way. The questions are ordered according to the location of the answers in the passage. For example, the answer to the first question will likely appear near the beginning of the passage, and so on. Questions relating to the reading selection as a whole will appear at the end of the set of questions.
- Consider all forms of information provided. Information will be presented not only in words but also in visual forms, such as cartoons, pictures, or charts.
- Take the time to reread the lines that are referred to in a question. Many questions contain quotations from the selection with line references indicated. It is always worthwhile to reread the lines that are referenced and to consider the meanings of these lines in both their immediate context in the selection and the context of the selection as a whole.
- When answering “best answer” questions, be sure to carefully read all four alternatives (A, B, C, and D) before choosing the answer that you think is best. These questions will always include a bold-faced qualifier such as **best**, **most strongly**, or **most clearly** in their stems. All the alternatives (A, B, C, and D) are, to some degree, correct, but one of the alternatives will be “best” in that it takes more of the information into account or can be supported most strongly by reference to the information.
- Work from partial knowledge when it is appropriate to do so. Read all the choices and see which one best fits the answer. If a correct or best answer does not become obvious fairly quickly, you may want to eliminate the answers that seem least appropriate and then use your judgement to select an answer from those that remain.
- Double check to make sure that you have answered every multiple-choice question.

Opportunities to Participate in Test-development Activities

Field testing

All provincial achievement test questions are field tested before use. By “testing” the test questions, students who write field tests have an opportunity for a practice run at answering questions that could be used on future provincial achievement tests. As well, the teachers have an opportunity to comment on the appropriateness and quality of the test questions.

Students also have an opportunity for a practice run at responding to *Part A* writing prompts. Their writing could be used to illustrate the standards for student writing for a future provincial achievement test.

Field tests for ELA *Part A* are not marked.

Through the online field test request system, teachers can create and modify field test requests and check the status of these requests. Information regarding the field-test process and the request system is available at [Provincial Achievement Tests](#).

Once the completed requests are received by the Provincial Assessment Sector, classes will be selected to ensure that a representative and sufficiently large sample of students from across the province take part in the field test. Every effort will be made to place field tests as requested; however, because field tests are administered to a prescribed number of students, it may not be possible to fill all requests.

Working groups

Teacher involvement in the development of provincial achievement tests is important because it helps to ensure the validity and appropriateness of the assessments.

Teacher working groups are used throughout the test-development process to create raw forms of test questions and to review and revise draft forms of provincial achievement tests. These working groups usually meet for one or two days, two or three times per year. Occasionally, these meetings are held on weekends.

To be eligible to serve on a test-development working group, a teacher must currently be teaching the course in question or must have taught the course within the past three years.

Teachers participating in working groups are selected from the working-group nominees approved by superintendents of school jurisdictions. The call for nominations usually occurs in September. However, we will accept further nominations throughout the year. In some subjects, more teachers may be nominated for working groups than are needed. When teachers are selected, there must be a balance of first-time and experienced working-group members and regional representation by zone, school authority, and school. Unfortunately, not everyone whose name is submitted will be selected.
