Alberta’s government is providing over 1.9 million homes, farms, and small businesses with $50 credits for six months on their electricity bills.

The rebate will show up as a credit on your electricity bill. Look for this line item: “GOA Utility Commodity Rebate.”

Consumers who believe they meet the eligibility criteria, but have not received the rebates by the end of July, should contact the Utility Consumer Advocate at 310-4822 or UCAhelps@gov.ab.ca for support.
