

2019 Municipal Integration List

Designated Industrial Property Assessment

As part of the transition to a centralized delivery model for all designated industrial property, a number of hybrid assessment delivery contracts with municipalities will be terminated in each year as we move forward with the transition. On January 2, 2019, the municipalities listed below received notification that they will be integrated in 2019 and therefore the contract to provide assessment services to the provincial assessor will be terminated effective July 2, 2019.
