Understanding your electronic designated industrial (DI) linear property assessment inventory details

This report is in a CSV file format. To convert your CSV file to an Excel spreadsheet, please see the document “**Working with your electronic assessment summary**”.

There are three separate reports containing similar DI linear property assessment information. The number of linear property types you own will determine how many of the three reports you require. The three reports contain the following information:

- Pipeline Assessment Inventory Report (see pages 4 to 8)
 - Alberta Energy Regulator (AER) licensed pipeline
 - Alberta Utilities Commission (AUC) licensed pipeline
 - Canada Energy Regulator (CER) licensed pipeline self-reported by the assessed person
 - Pipeline not licensed at the AER, AUC and/or the CER are to be self-reported by the assessed person
- Well Assessment Inventory Report (see pages 9 to 13)
 - AER licensed wells
 - Saskatchewan wells in the City of Lloydminster, Saskatchewan
- Self-Reported Other Assessment Inventory Report (see pages 14 to 19)
 - Gas distribution property
 - Cable distribution undertakings property
 - Telecommunication carrier property
 - Electric power property (Transmission and Distribution)
 - Electric power generation property
 - Railway
