Relieve the stress with professional advice

We can help relieve the stress you may have when dealing with legal matters. Our advisors will provide you with a clear explanation of how the law applies to your specific situation and recommend the most appropriate course of action. If your legal issue requires assistance beyond the scope of our Legal Support Services (e.g., preparation of a will or representation in court), we will help by providing a referral to a qualified lawyer or law firm. You will be responsible for fees incurred if you choose to accept representation from an EFAP-referred legal service. When referred from the EFAP, you may receive a discounted referral rate from the lawyer or firm.
