Permit Application for the Operation of 9 and 10 Axle Log Trucks

Section C: National Safety Code Compliance

1. If this application is for a carrier to operate and permit base plated vehicles from a jurisdiction other than Alberta, have you undergone a full National Safety Code (NSC) audit

Yes No

If YES, fill in table for each Jurisdiction

Jurisdiction	Date of Audit	Audit Score

If NO, the department will determine when an audit will be required.

Section D: Vehicle Information

Complete the attached form listing the 9 or 10 axle vehicles you will be operating. **This list can be provided in a different format provided all of the information specified below is included**

Unit Number	Configuration	Truck Plate
607	Tandem truck 2 tridem trailers	B12345

Section E: Collision Information

1. The permit holder must investigate and document the results of every traffic accident involving a commercial vehicle registered to the permit holder for more than 4500 kilograms that resulted in:
 - a) The death of a person;
 - b) An injury requiring treatment by a medical doctor;
 - c) A condition that causes an employee to lose consciousness;

Note: At any time Alberta Transportation may verify that collision evaluations are being conducted, preventability is being determined as specified, reports are being prepared and retained, and actions are being taken to ensure future similar collisions are being avoided

Section F: Safety Review

Prior to issuance of this permit, the department will determine:

- a) Whether this permit application is complete;
- b) Whether the vehicles meet the requirements, as defined by the permit,
- c) That the following information is acceptable:
 - i. the contents of your current Alberta Carrier Profile;
 - ii. past compliance to "safety laws" in Alberta or in any other jurisdiction;
 - iii. the results of an Alberta NSC Audit conducted
 - iv. content and implementation of applicant's written policies/procedures regarding the applicant's compliance to all permit conditions; and
 - v. any other information Permitting and Approvals considers appropriate.

At the end of this preliminary review, Alberta Transportation may:

- a) Issue the permit for the full year;
- b) Issue the permit with a reduced time period;
- c) Apply conditions to be satisfied prior to issuing or renewing the permit;
- d) Table the application until it is considered "complete" or Applicant is verified as being in compliance;
- e) Not support issuing the permit due to safety/compliance concerns.

The application may be returned if applicant has failed to provide all requested information.

Section G: Permit Conditions

Summary of Permit Conditions:

1. Permit Holder must have and maintain an acceptable Carrier Profile (including R Factor score), general NSC compliance (including good audit score) and permit compliance (including good Permit Inspection score, when available).
2. The Permit Holder must have and implement a written policy which identifies that they effectively monitor the compliance of each driver to the permit conditions for the 9 or 10 Axle B-Train.
3. The Permit Holder must have and implement specific written policies and procedures identified in their safety program to ensure that all conditions of the permit are being complied with at all times.

Permit Application for the Operation of 9 and 10 Axle Log Trucks

Do you understand and agree to abide by these policies?

Yes No

If NO, explain:

Section H: Certification

I certify that I understand and agree to abide by the above requirements, and that information provided in this application is true and correct.
