

# IMT Development

## Overview/Description

This course is designed to provide personnel with the information necessary to effectively participate on a Type 2 Incident Management team. They will also be able to effectively and efficiently utilize resources and establish clear and appropriate incident objectives and strategies.

Simulation exercises are conducted during this course.

## Target Audience

Candidates who anticipate acting as a unit leader or section chief on an active wildfire incident within the next five years.

## Prerequisites

- Planning Section
- Logistics Section
- Finance/Administration Section
- Strike Team/Task Force Leader

This course is not open to the general public.

## Registration

Forestry Division employees register through your local training contact.
