

L- 381 Incident Leadership

Overview/Description

The intent of the course is to provide individuals with the leadership tools to effectively exert command and control over a quickly-assembled team in a time-constrained and rapidly-changing incident environment. Beyond a set of tools and techniques, this training experience is designed to make an emotional and lasting impact. Essential guiding principles for achieving this impact include: enhancing the students' understanding of the human dimension when leading others in dynamic work environments; utilizing experiential training techniques that will engage students in ways that challenge them to perform under realistic and high-stress situations; and motivating students to examine their role, strengths, and weaknesses in that role.
