

Wildfire Prevention 2

Overview/Description

This course focuses on wildfire prevention activities within the Forest Protection Area.

Topics include:

- Fire control agreements and plans, FireSmart planning and project management, hazard reduction burning, prescribed fire planning and operations, as well as prevention planning, SOPs and Business Rules. It also includes wildfire investigation and wildfire management plans.

Target Audience

Wildfire Rangers and Fire Guardians directly involved in the delivery of wildfire prevention activities within the Forest Protection Area.

Individuals from cooperating agencies and organizations (e.g., provincial government, federal government, municipal district and county, and industry) that are involved in wildfire prevention within and along the jurisdictional boundary of the Forest Protection Area.

Prerequisites

- CIFFC Online Principles of Fire Behaviour.
- CIFFC Online Understanding the FWI System.
- Wildfire Prevention 1 (currently in development)

Registration

Forestry Division employees register through your local training contact.
