

2023 Deer Hunters

Assist Us With Our CWD Surveillance

The ongoing Chronic Wasting Disease Surveillance program for 2023 targets the following wildlife management units (WMUs).

It is **MANDATORY** to submit **DEER** heads from WMUs 148, 150, 151, 200, 234, 236, 728, and 730.

For game management purposes, we also are interested in receiving:

1. Any deer head from 503, 504, 505, 506, 509, 510, 514
2. Mule deer heads from 108, 110, 212, 216, 221, 224, 246, 247, 248, 250, 300, 302, 303, 306, 308, 310, 312, 314, 316, 320, 402, 404, 508.

Precise location of each kill is required, either GPS or Sec/Twp/Rng, in addition to the WMU.

Our **CWD-labelling system** provides a unique identification number for each head submitted. Heads should be frozen and, during rifle seasons, can be dropped off at any of the freezer locations indicated herein. Some Fish and Wildlife or Environment and Parks offices also may accept frozen heads. Hunters are advised to call ahead and make arrangements. Check page 13 of the *2023 Alberta Guide to Hunting Regulations* for office phone numbers. Green CWD labels and instructions are available when you submit the deer head. **PLEASE DO NOT REMOVE EXTRA LABELS FROM OUR FREEZERS. TAKE ONLY THE LABELS FOR THE HEADS YOU ALREADY HAVE.**

RESULTS:

When your results are available, a message will be sent to the email address in your AlbertaRELM account.

For more information visit alberta.ca/cwd or contact your local Fish and Wildlife office or Dr. Margo Pybus 780-427-3462 – for toll-free, dial 310-0000 first.

Note: freezers available from late October to mid-December only.
