on the farm

B is for Beef, the meat that comes from cows

C is for COMBINE

D

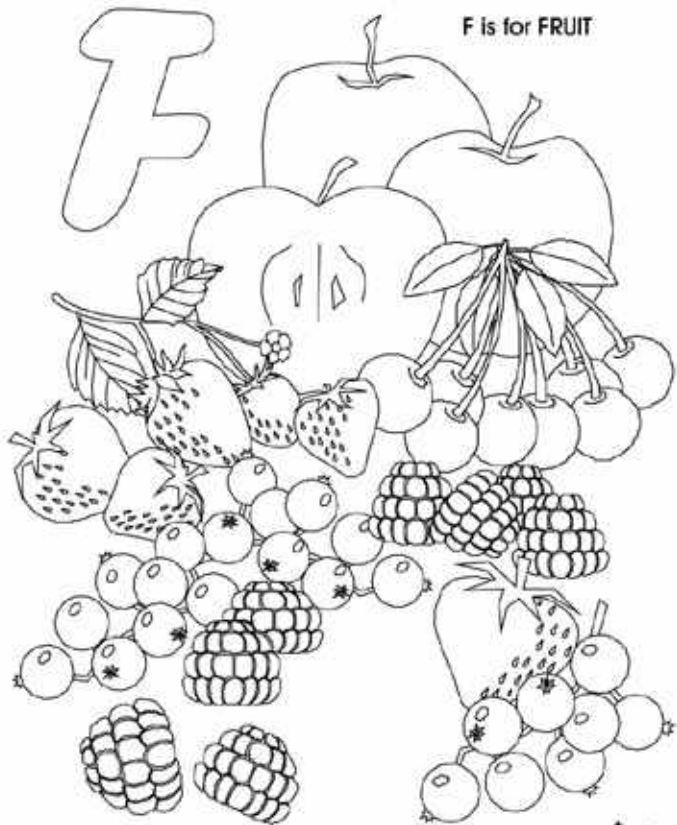

D is for DAIRY

E is for EGGS

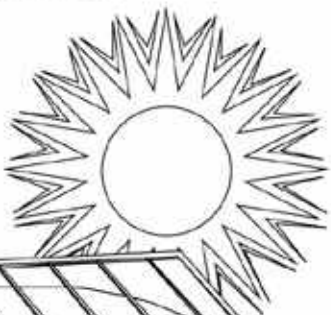

F is for FRUIT

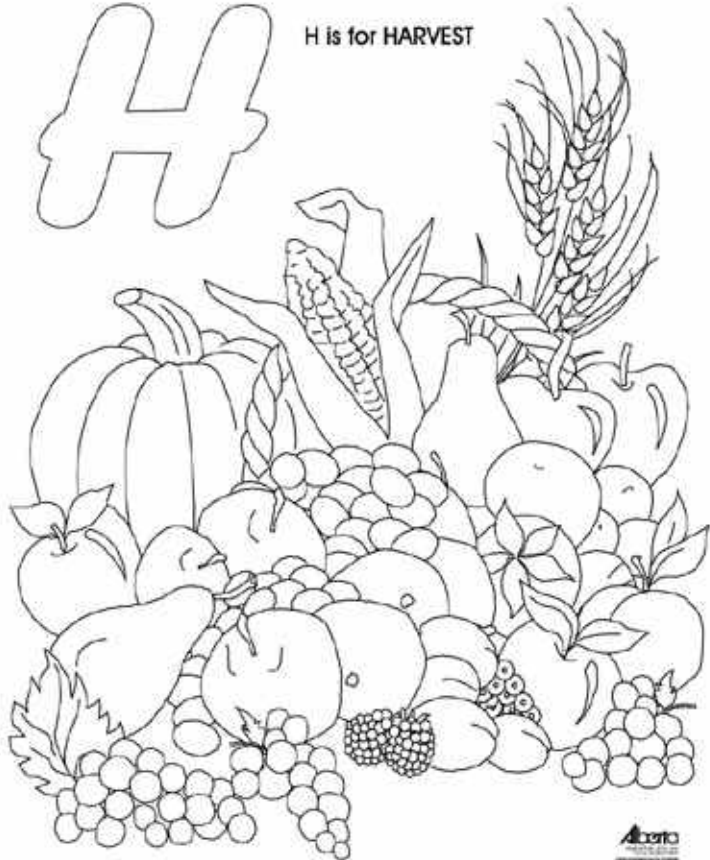

G is for GREENHOUSE

G

H

H is for HARVEST

I is for INSECTS. Not all bugs are bad. Many of them are a sign of good health and help control the bad pests

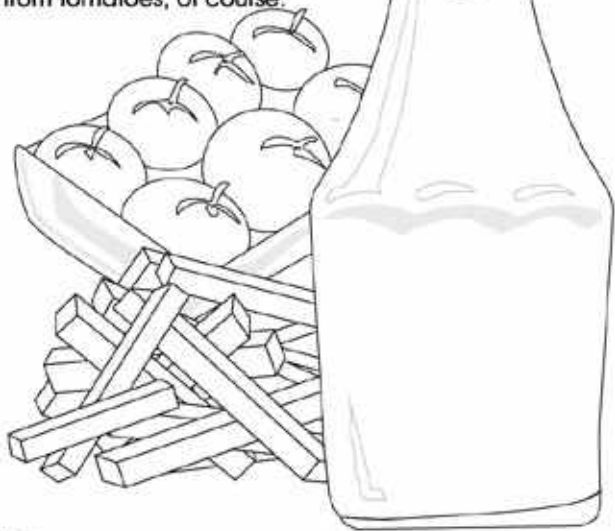

J

J is for JAM. A great way to preserve those fresh summer fruits.

K

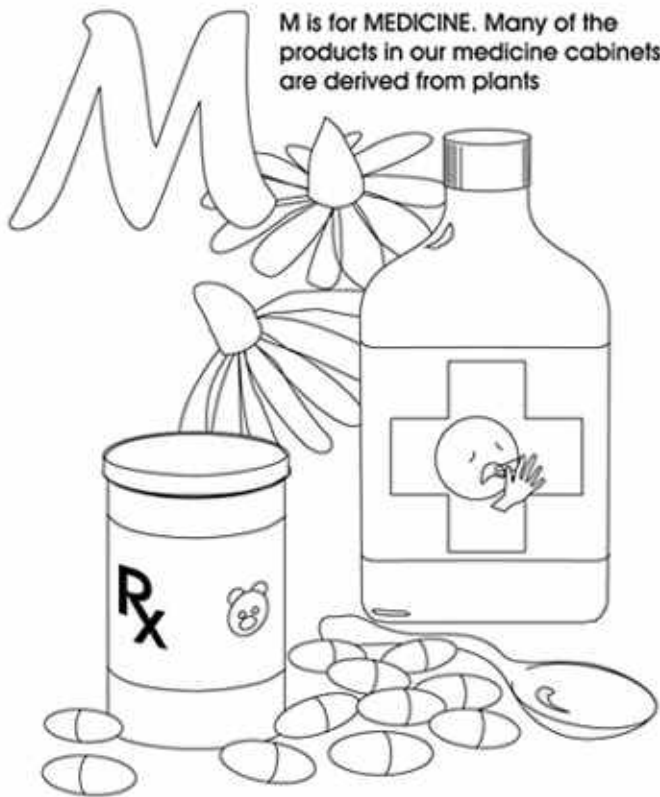

K is for KETCHUP which is made from tomatoes, of course.

L is for LUMBER.

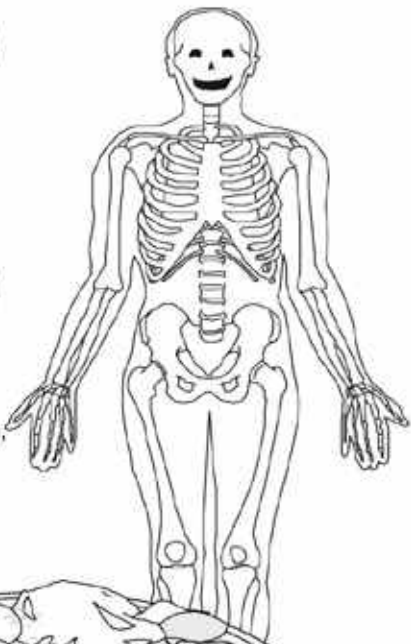

M is for MEDICINE. Many of the products in our medicine cabinets are derived from plants

N

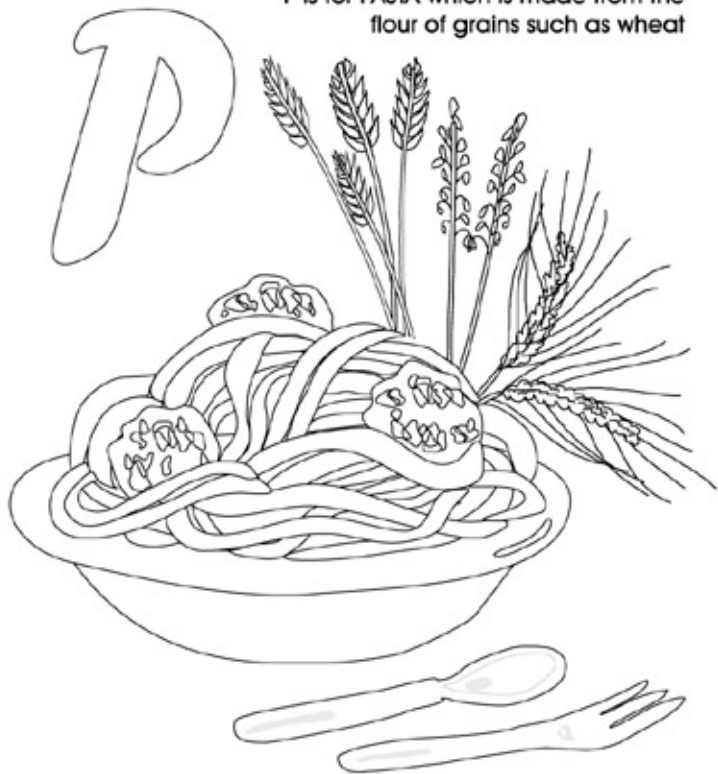

N is for **NUTRIENTS** that make our bones and muscles healthy and strong. We get the nutrients our body needs by eating fresh, healthy foods

O is for OIL. Most of the Oils used for cooking are derived from the seeds or fruit of flowering plants

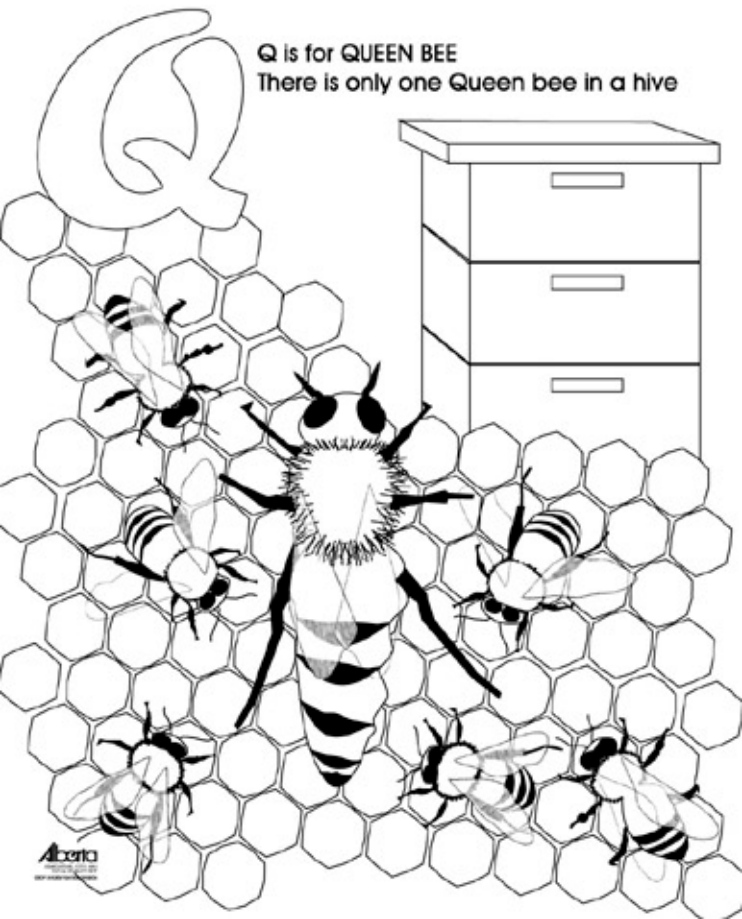

P is for PASTA which is made from the
flour of grains such as wheat

Q is for QUEEN BEE

There is only one Queen bee in a hive

R

R is for the RAIN that is essential for crops to grow.

S is for the **SCIENTISTS** who study agriculture and discover better and safer ways to grow crops and care for livestock

S

T

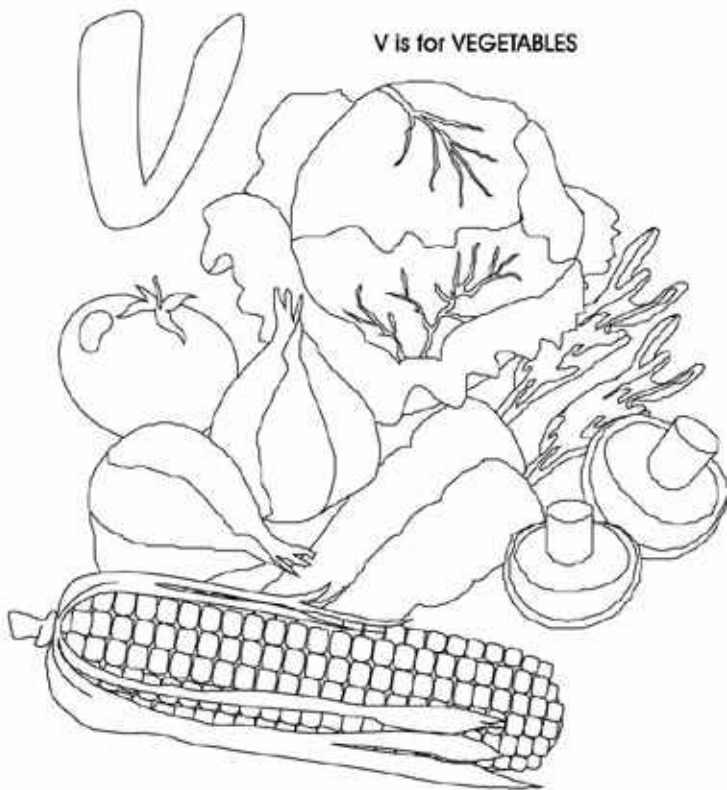

T is for TRACTOR.

U is for U-PICK. Farms where you can go to
pick your own fresh fruit and vegetables

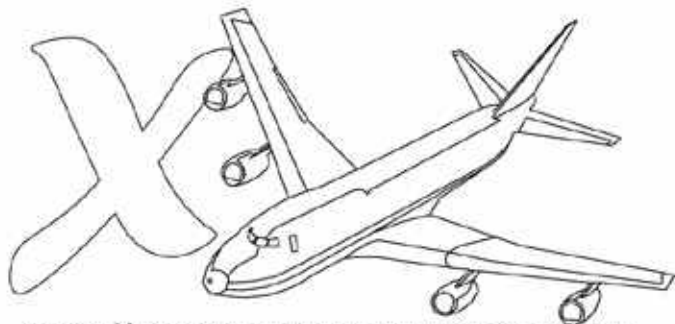

V is for VEGETABLES

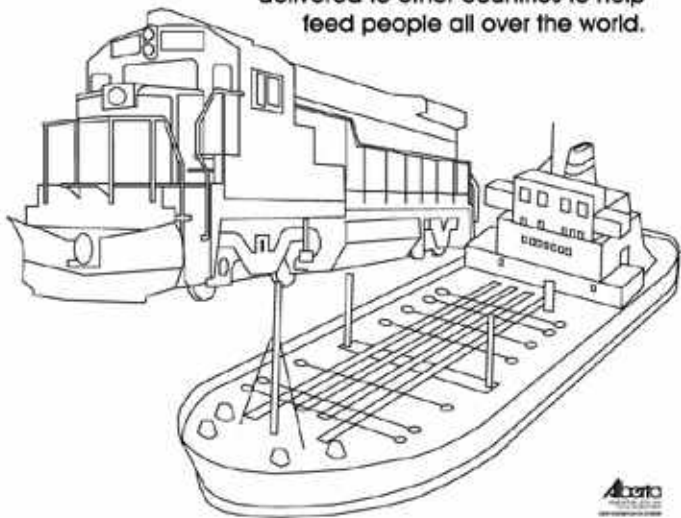

W is for WHEAT. Wheat grains are dried then ground to make flour which is the main ingredient in bread and pasta

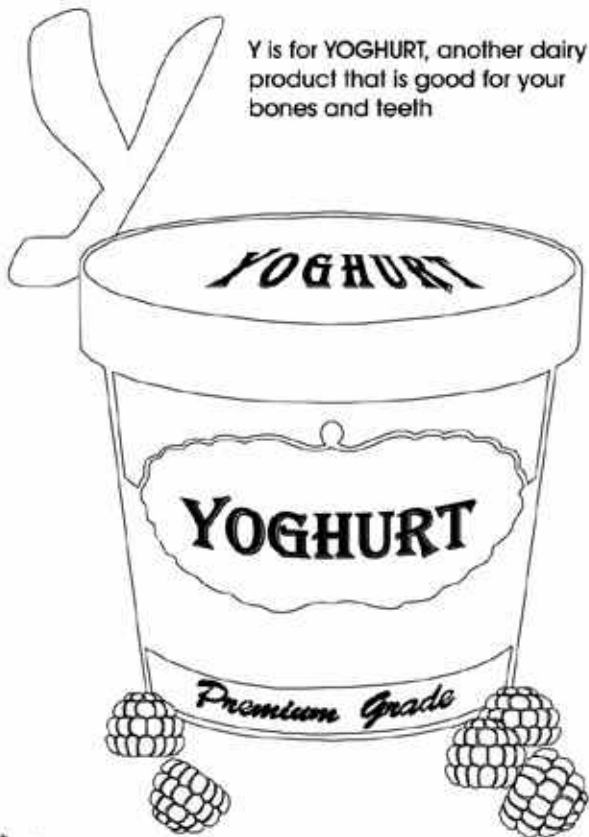

X is for EXPORTS. Many of our Agricultural products are delivered to other countries to help feed people all over the world.

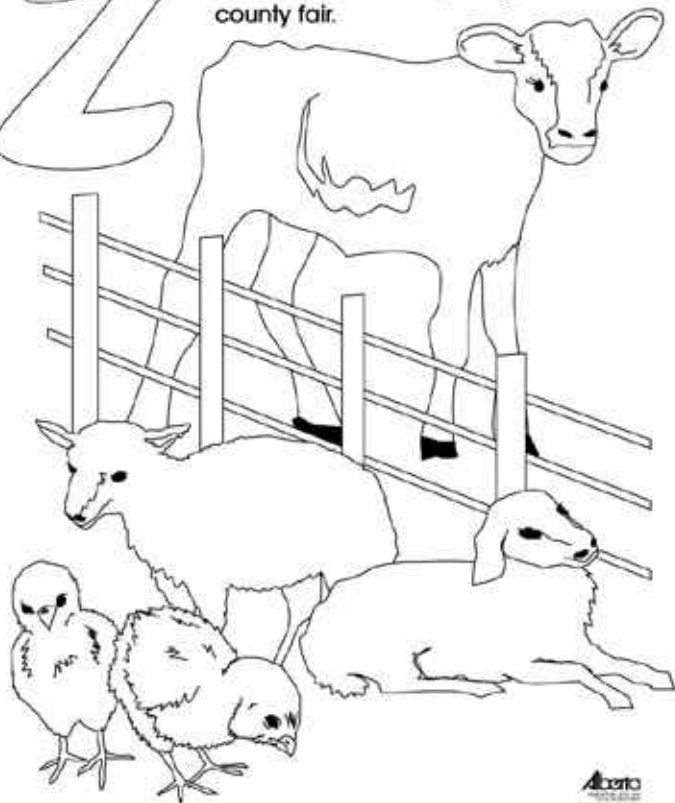

Y is for YOGHURT, another dairy product that is good for your bones and teeth

Z

Z is for ZOO, like the petting zoo at the county fair.
