

Alberta Vegetation Inventory (AVI) 200

Overview/Description

In this two day course, candidates will inventory vegetation to the AVI 2.1.1 standard using common photogrammetry processes, tools, and techniques. Focus will be on difficult and complex vegetation types.

Certification exam will be held on day two. Candidates successfully challenging the exam will receive Departmental AVI 200 certification (Certified Interpreter).

Target Audience

Individuals with AVI 100 certification and one year's work experience as an interpreter.

Prerequisites

There are no prerequisites.
