

Lookout Supervisor Orientation

Overview/Description

The intent of the course is to provide new lookout supervisors with a basic understanding in fire lookout management. The primary focus of the course is to create an understanding of how to inspect a lookout site, facilitate repairs and maintenance and ensure the safe, reliable and efficient operation of the lookout.

Target Audience

Forestry Division employees.

Prerequisites

Must have the Fall Protection - Basic Climber training course (FIRES #111A).

Registration

Forestry Division employees register through your local training contact.
