**ENVIRONMENTAL PROTECTION AND ENHANCEMENT ACT**

**A GUIDE FOR THE APPLICATION FOR REGISTRATION**

**For Activities Related To**

**THE SALES, HANDLING, USE AND APPLICATION OF PESTICIDES**

All businesses operating within the Province of Alberta require a registration issued by Alberta Environment and Parks to apply and/or sell pesticides in accordance with Sections 60 and 61 of the *Environmental Protection and Enhancement Act* and Sections 7 and 14 of the *Pesticide (Ministerial) Regulation*.

Your operation will require a **Pesticide Service Registration** if it:

1. offers or provides a pesticide use or application service involving pesticides in Schedule 1, 2, or 3
2. uses or applies a pesticide on a right-of-way
3. uses or applies a pesticide on public land that belongs to a federal, provincial or municipal government or other local authority
4. uses or applies a pesticide for forest management.

Attached to the application form for a Pesticide Service Registration is an *Operation Compliance Self-Audit*. This form must be completed and submitted at the time of the application, retained by the operation, and made available at the time of an operation inspection by Alberta Environment and Parks. The audit should be reviewed and updated on an annual basis by the operation (preferably in spring prior to seasonal operation). Any changes to the operation must be brought to the attention of Alberta Environment and Parks in accordance with the conditions and during the term of an issued registration.

**NOTE: PLEASE ALLOW SIX WEEKS TO PROCESS A REGISTRATION.**

An operation that does not hold a valid Agrichemical Warehousing Standards Association (AWSA) certificate will require a **Pesticide Vendor Registration** if it:

- 1) sells or distributes pesticides at wholesale
- 2) sells federally registered "Commercial class" pesticides at retail
- 3) stores pesticides for distribution to Alberta Wholesale or Retail Vendors.

**NOTE: All operations that provide SERVICE AND VENDOR functions must obtain both a Pesticide Vendor and Service Registration regardless of whether or not they hold an AWSA certificate.**

**NOTE: Service and vendor registrations are issued for the outlet and storage address identified on the application forms. Prior to moving the outlet or storage location, the service or vendor must notify the Director and apply for a new registration. In addition, sale of the operation will automatically cancel the registration. The new owner must apply for a new registration.**

If you require assistance please contact Alberta Environment and Parks at;

Tanya Rushcall  
Provincial Pesticide Approvals and Registration Specialist

*To be connected toll free from anywhere in Alberta, first dial 310-0000.*

**This page contains further instructions on completing the application form.**

## **Company Name**

The name of your company is the legal entity registered with the Alberta Corporate Registry (e.g. 123456 Alberta Ltd.). If you do not have a registered company, then the service registration will be issued to the individual who has identified his/herself as the Authorized Representative and signed the application form. Any legal issues are directed to the legal entity name or this individual.

## **Operating Name**

This is the name of your operation that you advertise your services under if different from your legal entity name (e.g. ABC Spray Services may be the operating name for 123456 Alberta Ltd.).

## **Addresses**

Many operations have a number of different addresses, such as a post office address, or a different address for finding the physical location of the operation. Alberta Environment and Parks will require all the different means of locating an address, including the legal land location (identified on your municipal tax notice).

## **Authorized Representative / Executive Officer / Owner**

This is the individual that is responsible for the operation. If this is also the owner (e.g. in small companies) then the individual will identify him/herself again in the Executive Officer/Owner identification box. For multi-outlet operations there will likely be different names in each of these boxes. The authorized representative is also responsible for ensuring Alberta Environment and Parks is notified of any changes to the operation as required in the conditions of a Pesticide Service and/or Vendor Registration.

## **Certified Pesticide Applicators**

At least one certified Alberta pesticide applicator must be identified and employed by the operation before the application will be considered. The registration will only be issued for the class of Alberta Pesticide Applicator Certificate that the applicator holds and/or that the registration application indicates. This is a legal requirement that must be maintained during the entire term of the registration while the registered service is in operation.

## **Certified Pesticide Dispensers**

Any operation submitting an application for the sale/distribution of Restricted or Commercial class pesticides (Schedule 1 or 2) must have a dispenser that has been certified through the **Commercial Pesticide Dispenser** Certificate Program administered by Lakeland College. An applicator certified through the **Pesticide Applicator** Program, also administered by Lakeland College, may be recognized as an alternative.

## **Pesticide Insurance Coverage**

This is a legal requirement that must be maintained during the term of the registration while the registered service is in operation. If a policy lapses or is cancelled, the Pesticide Service Registration is automatically cancelled. It is important to advise your insurance broker/agent that for each renewal of the policy they should provide to Alberta Environment and Parks an updated copy of the "Pesticide Service Registration Certificate of Insurance" or their own policy coverage statement indicating your operation has met the legislated requirements. This is usually an annual event.

**ENVIRONMENTAL PROTECTION AND ENHANCEMENT ACT**

**APPLICATION FOR REGISTRATION**

**For Activities Related To  
 THE SALES, HANDLING, USE AND APPLICATION OF PESTICIDES**

I hereby make application for  a new  a renewal of a  an amendment to a

**Pesticide Service Registration**

and provide the following information for the activity(ies) that applies to my operation.

Once the application is completed, print and sign the form, then scan it and email it to [aep.epeaapplications@gov.ab.ca](mailto:aep.epeaapplications@gov.ab.ca) or facsimile it to the fax number in the document header above.

**Company Name:**

Is this an Alberta Registered Corporation? _____; a Registered Trade Name? _____; a Name only? _____

**Operating Name:** (Please indicate the name you are known as or advertise your services under if different from above.)

Same as above	<b>Operating as:</b>
------------------	----------------------

**Operation Mailing Address:      Operation Location Address:      Pesticide Storage Address:**

Street:	Street:	Street:
Municipality:	Municipality:	Municipality:
Postal Code:	Postal Code:	Postal Code:

**Legal Land Description and/or Block Plan Number**

**NOTE to AGRICULTURE and AERIAL Class Services**

An Application submitted for a Service Registration by any operation that is involved in **Agriculture** and/or **Aerial** Class activities must indicate the certification obtained from the **Agrichemical Warehousing Standards Association** if the applicant is involved in the storage of any amount of pesticide that:

- 1) exceeds what can be applied within the date that it is supplied, or
- 2) must be retained for a period longer than one night as a result of a weather delay or early morning application.

**The Agrichemical Warehousing Standards Association (AWSA) Certificate of Compliance Number for this outlet is \_\_\_\_\_ and will expire on December 31, \_\_\_\_\_.**

**Authorizations:**

I have read and understand the requirements of the most current [Pesticide Sales, Handling, Use and Application Regulation 24/97](#), the [Pesticide \(Ministerial\) Regulation 43/97](#), and the [Environmental Code of Practice for Pesticides](#) and that an inspection may be conducted prior to and/or during the term of issuance of this registration to verify compliance with provincial pesticide legislation, and that the issuance of a registration pursuant to Part 2, Division 2 of the [Environmental Protection and Enhancement Act](#) does not relieve me from complying with all other applicable legislation, whether federal, provincial or municipal.

**By checking this box, I confirm that I have completed, at the time of this application, a self-audit of my operation using the “*Operation Compliance Self-Audit*” form included in the application and retained a copy for my operation verifying that this operation is in compliance with all indicated legislated requirements. This audit form will be kept and made available upon request by an inspector of Alberta Environment and Parks.**

**By checking this box, I confirm that insurance coverage in accordance with the Pesticide Sales, Handling, Use and Application Regulation 24/97 and the *Environmental Code of Practice for Pesticides* has been obtained and is attached.**

I, the undersigned, acknowledge the application information to be a true and accurate representation of my operation activities at the time of signing. **Any changes to this information will be immediately forwarded to Alberta Environment and Parks.**

## PESTICIDE SERVICE REGISTRATION CERTIFICATE OF INSURANCE

Completion of this certificate verifies to Alberta Environment and Parks that the policy identified below is now in effect for:

**PESTICIDE SERVICE NAME:** \_\_\_\_\_

**PESTICIDE SERVICE TELEPHONE NUMBER:** \_\_\_\_\_

If renewing insurance policy please provide the Pesticide Service Registration Number: \_\_\_\_\_

**POLICY #:** \_\_\_\_\_

**POLICY TERM:** \_\_\_\_\_ **TO** \_\_\_\_\_

- YES, THE POLICY PROVIDES GENERAL LIABILITY covering pesticide-related activities in an amount not less than \$1,000,000 per occurrence.
- YES, THE POLICY PROVIDES PESTICIDE DRIFT LIABILITY in an amount not less than \$25,000 per occurrence, if the Pesticide Service is performing AGRICULTURAL or AERIAL applications.

The insurance policy has been endorsed, as per the requirements of *the Environmental Code of Practice for Pesticides*, and the undersigned agrees to provide 15 day advance written notice of policy cancellation or material change to Alberta Environment and Parks (address and/or facsimile noted at the top of this certificate).

**NAME OF INSURANCE AGENT OR BROKER:** \_\_\_\_\_

**ADDRESS OF INSURANCE AGENT OR BROKER:**

**DATE**

**See Insurance Requirements  
 on the next page.**

# INSURANCE REQUIREMENTS

Every applicant for or holder of a service registration (other than a government department or agency) must maintain insurance for himself or his employees with respect to liability arising out of his operations. This includes the handling, use and application of pesticides.

In accordance with Section 14(1) of the *Pesticide Sales, Handling, Use and Application Regulation 24/97*,

"An applicant for or holder of a pesticide service registration must carry insurance for himself and his employees in accordance with the latest edition of the *Environmental Code of Practice for Pesticides* published by the Department."

Insurance requirements of the *Environmental Code of Practice for Pesticides* (Section 7) amended on May 12, 2010 and published by the Department state:

- (1) Every applicant for or holder of a pesticide service registration, other than a government department or agency (Note: applies to both provincial and municipal government), shall provide the Director with a certificate of insurance in the format acceptable to the Director each time that an insurance policy is issued or renewed.
- (2) A certificate of insurance will not be acceptable to the Director unless it has been issued by an authorized representative of the insurer or the insurance agent or broker, and states that the insurance covers pesticide application activities.
- (3) A pesticide service registration holder, shall at its own expense and without limiting its liabilities herein, insure its operations under a contract of General Liability Insurance, in accordance with the *Alberta Insurance Act*, in an amount not less than \$1,000,000 inclusive per occurrence, insuring against bodily injury, personal injury and property damage including loss of use thereof.
- (4) Pesticide service registration holders offering AGRICULTURAL pesticide application services as described in Schedule 5 of the *Pesticide (Ministerial) Regulation* (A.R. 43/97) must carry insurance covering pesticide drift liability in an amount not less than \$25,000 for any one occurrence.
- (5) Pesticide service registration holders offering AERIAL pesticide application services as described in Schedule 5 of the *Pesticide (Ministerial) Regulation* (A.R. 43/97) must carry aircraft liability insurance in accordance with the *Alberta Insurance Act* including liability for deliberate low flying as required for the conduct of the operation, for any and all aircraft involved in the aerial application of pesticides, in an amount not less than \$1,000,000 per occurrence and pesticide drift liability in an amount not less than \$25,000 for any one occurrence.
- (6) The service registration holder must make insurance policy verifications available to Alberta Environment and Parks upon request.

**NOTE: Section 14(2) of the *Pesticide Sales, Handling, Use and Application Regulation 24/97* states:**

**"If the insurance expires or is cancelled, the registration in respect of which the insurance was required under subsection (1) is automatically cancelled."**

The contract of insurance must remain in full force and effect for 15 days following advance written notice of policy change or cancellation to Alberta Environment and Parks. **During any period when the required contract of insurance is not in full force and effect the Pesticide Service Registration is automatically cancelled.**

## PESTICIDE SERVICE REGISTRATION OPERATION COMPLIANCE SELF-AUDIT

**THE APPLICANT MUST COMPLETE THE AUDIT PRIOR TO A REGISTRATION APPLICATION AND SHOULD ALSO CONDUCT THE AUDIT YEARLY. A COPY MUST BE RETAINED ON FILE BY THE OPERATION. THE AUDIT MAY BE REQUIRED TO BE PRODUCED ON INSPECTION BY ALBERTA ENVIRONMENT AND PARKS.**

In support of an application for a Pesticide Service Registration in the Province of Alberta the following legislative requirements have been audited for compliance on behalf of:

NAME OF OPERATION: \_\_\_\_\_

APPLICATOR CONDUCTING THE AUDIT: \_\_\_\_\_

SIGNATURE: \_\_\_\_\_

POSITION WITH OPERATION: \_\_\_\_\_

DATE AUDIT CONDUCTED: \_\_\_\_\_

**By adding a checkmark or X to each requirement in Parts 1 through 9, I confirm that it is being conducted by the operation. If it is not conducted by the operation, please indicate n/a next to the box.**

**PART 1 PESTICIDE APPLICATOR RECORDS****AR 43/97, s. 11, 12\***

**pesticide application records are kept for a period of 5 years from the date of application  
application records are submitted to the Service Registration holder within 15 days of the  
application**

**Records include:**

name of the customer

location of the application

year/month and date/time of application

pest and purpose of the application

name of pesticide and the federal label *Pest Control Products Act* (PCPA) Registration Number

application rate and total quantity of pesticide used

method of application

if applied outside: weather conditions (temperature, humidity, precipitation, wind speed/direction)

identification and proximity of open water and sensitive sites (if within 30 metres of open water)

for forest management pesticide use: a written authorization from Alberta Agriculture and Forestry (AAF), maps and photographs of all open bodies of water within the application site

for Industrial Vegetation Management (roadside, powerline, pipeline and right of way) in the Green Area: a copy of the written permission (or waiver) by AAF to conduct the application

for Structural Pest Control: notification document provided to the owner of the building to be treated that includes name, address and telephone number of the pesticide service, preparation procedures for each room in the dwelling, date and time to vacate the premises, name and PCPA Registration Number of each pesticide to be used, occupant re-entry periods and clean-up procedures.

for fumigations: a copy of the fumigation management plan, date and a list of persons notified of the fumigation, a copy of fumigation notice provided to occupant or owner, name of person who patrolled the structure while it was being fumigated.

**PART 2 PESTICIDE NON-CERTIFIED ASSISTANTS & AUTHORIZED ASSISTANTS**

**If no assistants used by operation, check this box and go to Part 3**

**AR 24/97, s.12 & ECoPP, s. 5\***

all assistants are over the age of 18 years if applying any pesticides identified in Schedule 1.  
all assistants are over the age of 16 years if applying any pesticides identified in Schedule 2 or 3  
all assistants are being supervised by a certified pesticide applicator  
the certified pesticide applicator maintains all assistant application records  
the applicator and the service obtain and retain a copy of the Authorized Assistant Certificate of training for all Authorized Assistants  
the supervising applicator and service completes and retains a copy of the Training Checklist completed with all assistants

***Non-certified Assistants***

are visited at application site **daily** by the certified applicator (and at each change in pesticide, application rate and equipment change; also they are checked to ensure safety procedures are followed as specified by label directions or policies for the operation)

directly supervised by certified applicator (i.e. on-site during the entire application) while

mixing/loading a Schedule 1 pesticide

conducting a forest management application

spraying trees with any insecticide other than soap or a *Bacillus thuringiensis* formulation

spraying for adult mosquitoes

spraying non-selective residual herbicides

spraying any rights-of-way with a pesticide containing Picloram

spraying any applications where the federal label limits the application to a certified applicator.

maintain contact with certified applicator by radio or telephone/cell

have received training **yearly** by the certified applicator in accordance with the *Environmental Code of Practice for Pesticides*, Appendix A (Training Checklist for Pesticide Applicator Assistants)

***Authorized Assistants***

have successfully completed a certified trainer administered examination and have been issued an Authorized Assistant Certificate of Training by the trainer.

have received training **yearly** by the certified applicator in accordance with the *Environmental Code of Practice for Pesticides*, Appendix A (Training Checklist for Pesticide Applicator Assistants)

directly supervise no more than 2 non-certified assistants (6 for forestry class applications)

carry a copy of their Authorized Assistant Certificate that will identify their qualifications at any application site.

**PART 3 PESTICIDE INSURANCE**

**AR 24, s.14 & ECoPP, s. 7\***

general liability insurance coverage is in effect, updated annually for this operation and a copy is provided to Alberta Environment and Parks upon renewal of the insurance  
if providing an agricultural and/or aerial service, pesticide drift insurance coverage is in effect, a copy of the insurance is provided to Alberta Environment and Parks on a yearly basis.

**PART 4 PESTICIDE DISPOSAL**

**AR 24/97, s.28 & ECoPP, s. 10\***

all non-refillable Schedule 1 or 2 plastic or metal containers are disposed of at an authorized pesticide container collection site  
all paper, glass, cardboard or bags that contained a Schedule 1 or 2 pesticide or a container that contained a pesticide are disposed of at a Class II landfill – **NOTE:** clean cardboard packaging may be recycled  
rinsate and solution are disposed of **in accordance with label directions** and may include:  
 as mix water in spraying solutions  
 by spraying over the treated area (ensuring maximum label rates are not exceeded), or  
 in a manner acceptable to and authorized in writing by a designated Director of Alberta Environment and Parks (to be contacted through nearest regional office).

**PART 5 MIXING AND LOADING SITES (FOR PRIMARY SITE)**

**AR 24/97, s. 27 & ECoPP, s. 8\***

site can contain pesticide spills  
site is not located within 30 metres of an open body of water (unless following *ECoPP* provisions)  
there is a site sketch which includes a 50 metre radius around the site and shows:  
 a drainage pattern, watering points, wells and other water sources  
 distance to wastewater, storm drainage systems, watering points, water sources and surrounding land uses  
site sketch is available to all personnel  
written contingency plan for the containment and cleanup of pesticides is available to all personnel  
the site has no evidence of off-site migration of pesticide  
backflow prevention device/method is being used  
no evidence of spillage

**PART 6 EMERGENCY RESPONSE INFORMATION AR 24/97, s.22 & ECoPP, s. 9(2)\***

all emergency response information is current and readily available at all operational sites (e.g. permanent operation site, storage site, mixing/loading sites, vehicles) and includes:

- Safety Data Sheets
- copies of pesticide product labels
- list of Emergency Response Contacts, including
  - Poison Control Centre (1-800-332-1414)
  - Alberta Environmental Response Centre for spill reporting (1-800-222-6514)

a contingency plan is in place for all staff on containment and clean up of pesticide releases  
a release reporting mechanism is in place for this operation, which will **immediately report** a release of any amount of pesticide that causes or may cause an adverse effect to the environment to Alberta Environment and Parks by calling 1-800-222-6514. The report must include the location, location description, time, circumstances leading to, type of, quantity and action taken/proposed for (*EPEA, s.110,111*).

**PART 7 PERSONAL PROTECTIVE EQUIPMENT AR 24/97, s.22 & ECoPP, s. 9(2)\***

is available at all operational sites (e.g. permanent operation site, storage site, mixing/loading sites, vehicles), and includes:

eye protection

suitable respirator / cartridge supply, when indicated on Safety Data Sheets meeting Occupational Health and Safety requirements

all individuals needing to use a respirator for pesticide applications or for emergency response are, on a two year basis, fit tested for the respirator by a certified fit tester

chemical-resistant gloves and boots

chemical resistant apron, if required by label directions

coveralls

first aid kit

eyewash or shower

**PART 8 SPILL CLEANUP EQUIPMENT AR 24/97, s.22 & ECoPP, s. 9(2)\***

is available at all operational sites (e.g. permanent operation site, storage site, mixing/loading sites, vehicles) where pesticides are displayed, stored or used

access to information to obtain and readily locate appropriate absorbent material, as specified on Safety Data Sheets, or by the label or the manufacturer

access to information to obtain and readily locate appropriate neutralizing materials, as specified on Safety Data Sheets, or by the label or the manufacturer

broom and shovel

container(s) with lid(s) for waste material

labelling materials to identify waste

Location Address: \_\_\_\_\_

Legal Land Location (Lot/Block/Plan): \_\_\_\_\_

**IF THIS IS A CERTIFIED AGRICHEMICAL WAREHOUSING STANDARDS ASSOCIATION (AWSA) FACILITY:**

This facility has been audited by the **Agrichemical Warehousing Standards Association (AWSA)**. The certificate is current and the number is \_\_\_\_\_. The expiry date is December 31, \_\_\_\_\_.

**IF THIS IS A NON-CERTIFIED AGRICHEMICAL WAREHOUSING STANDARDS ASSOCIATION (AWSA) FACILITY:**

Pesticides are stored in: (✓) one or more of the following:

- |   |                                       |  |
|---|---------------------------------------|--|
| <input type="checkbox"/> Cabinet                      | <input type="checkbox"/> Storage room | <input type="checkbox"/> Vehicle / Trailer |
| <input type="checkbox"/> Secondary container          | <input type="checkbox"/> Warehouse    | <input type="checkbox"/> Outdoor Storage   |
| <input type="checkbox"/> Other, please specify: _____ |                                       |  |

- the storage facility is completely separated in an enclosed area from food and personal use items.
- the storage facility is separated from office, washrooms, employee rest areas and other work areas.
- there is a pesticide storage warning sign posted to the exterior door, entrance or gate of this storage facility
- the pesticide storage facility is on a site that is able to withstand a 24 hour, 1 in 25 year storm without flooding.
- the storage facility can be secured from public access (i.e. entrances can be closed and locked, and windows secured to prevent unauthorized access).
- if present, the storage facility, has (storm) drains protected from a pesticide release.
- any releases of pesticide concentrate in storage can be contained within the boundaries of the storage site (through curbing, dike, sloping to containment sump/tank).
- the floor or base of this storage facility is protected from pesticide absorption.
- open containers or packages of pesticide are closed or repackaged to prevent the release of odours and vapours
- Safety Data Sheets and emergency numbers are available/accessible for all pesticides in storage
- those pesticides stored outdoors are protected from wind, rain, and other weather hazards.
- written notification has been provided to the local fire department as to what pesticides are in storage.
- the secondary containment is adequate for the volume of product stored (in accordance with *Pesticide Storage: Regulatory Requirements and Guidelines (Schedule 1 & 2 Pesticides)* – June 15, 1999 edition

**SUPPLEMENT to the  
APPLICATION for a  
PESTICIDE SERVICE REGISTRATION  
for an  
AERIAL APPLICATION SERVICE**

Aerial Application Operations are requested to provide the following information and include it with their submission of an application for a Pesticide Service Registration:

#	Aircraft Type	Colour	Call Letters	Name of auditor performing the calibration	Date of Last Calibration Certification**
1					
2					
3					
4					
5					
6					

\*\* In accordance with the *Pesticide Sales, Handling, Use and Application Regulation 24/97*, section 10 and the *Environmental Code of Practice for Pesticides*, section 6 (2), each aircraft's application equipment must be checked and calibrated by an auditor and to standards that are recognized by a Director of Alberta Environment and Parks every 20 months.
