Water Well Management Log Sheet: well #_

Use this log sheet to track your well's performance. It is also important to keep copies of your water well drilling reports, well inspections, water tests and treatments. If you have more than one well on your property, be sure to use a separate log sheet for each well.

Date Month / Day / Year	Time	Water Level Feet or Metres		Comments Quality (colour, taste, odour), presence of sediment, yield problems	Recommended Treatment (e.g. shock chlorination, repairs, etc.)
		Non-pumping	Pumping	etc.
