Introduction

This guide will assist with the completion of the Statement of Receipts and Disbursements and Budget templates provided by the Public Library Services Branch (PLSB).

Statement of Receipts and Disbursements

Municipal and intermunicipal library boards may use the provided Statement of Receipts and Disbursements template for their financial review **or** submit the financial review in the format provided by the financial reviewer.

Budget

Municipal and intermunicipal library boards may use the provided Budget template **or** submit their own budget document (please remember to include the legal name of the library board on the document and have it signed and dated by the board chair).

Where do I find the instructions and templates?

They are available on our [website \(albertalibraries.ca\)](http://albertalibraries.ca) – see Public Library Board Operating Grants).

Completing the templates

The Statement of Receipts and Disbursements

This is the board's financial statement for the previous year. The statement is completed by the library board's financial reviewer, as per section 9 of the *Libraries Act*, and must be signed by the individual or company that conducted the review.

The Financial Reviewer

The library manager and/or library board assist by having all financial records available for the reviewer when they are ready to do the review, and by keeping the accounts up to date. If the board decides to change its reviewer, municipal council must be notified and council must approve the new reviewer via resolution at a council meeting. Please notify PLSB if the financial reviewer changes. Documentation, such as a letter from the municipality or meeting minutes from council, should be attached to the financial review to show council finds the new reviewer to be satisfactory.

Direct Payments Form – Receipts and Disbursements

The last page is the Direct Payments form. It is to be completed and signed by a Municipal Administrator (i.e. CAO) if the municipality expended money directly on behalf of the library board. These expenditures are referred to as "direct payments".

The Budget

This budget is completed by the treasurer (or other designated person), and it must be approved by the library board. The budget should clearly state the name of the library board, be signed by the person who filled out the template and provide the date that the library board approved the budget.

Direct Payments Form – Budget

The last page is the Direct Payments form. It is to be completed and signed by a Municipal Administrator (i.e. CAO) if the municipality will be expending money on behalf of the library board. These expenditures are referred to as "direct payments".

NOTE: Instructions for the Budget are the same as for the Statement of Receipts and Disbursements, except that the figures are estimates. The categories on the two templates are the same so that the figures for the two years can be compared.

Statement of Receipts and Disbursements

Financial Review Authorization

On page 2, identify the library board by its legal name as per section 3(4) of the *Libraries Act* - i.e., “The (name of municipality) Library Board”. The Financial Review statement must be signed and dated by the person selected by the board and accepted by council to conduct the financial review on behalf of the board. **If the board decides to change its reviewer, it must notify municipal council, and council must approve the new reviewer. PLSB must be notified if the financial reviewer changes.**

Direct Payments

When giving the Direct Payments forms to the Municipal Administrator to fill out, please also provide the following instructions. A separate version of these instructions specifically for Municipal Administrators is also available on our [website \(albertalibraries.ca\)](http://albertalibraries.ca) – see Public Library Board Operating Grants).

Costs paid directly by the municipality on behalf of the library board are referred to as “direct payments.” If the municipality makes direct payments in addition to, or in lieu of, local appropriation to the library board, this form must be completed by a Municipal Administrator. Local appropriation is the annual cash transfer from the municipality to the library board to deliver public library service.

The library board will have to contact the Municipal Administrator to obtain this information, and he or she must sign and date the bottom of the Direct Payments form to account for the veracity of the information it contains.

Include only that portion of the municipal expenditure that is paid directly to a company, organization or individual, etc. on behalf of the library board. Only actual funds expended should be reported - **do not include in kind payments.** Because these expenditures are paid on behalf of the library board, not by the library board, the figures in lines a. to L. should not be included in the library board's budget or financial review.

Instructions for the Direct Payments - Budget form are the same as for the Direct Payments - Statement of Receipts and Disbursements except that the figures are estimates.

Operating Expenditures Paid by Municipality (Direct Payments)

i. Library staff (e.g. salaries, wages, benefits. Do not include expenditures for municipal staff)

Any funds paid by the municipality directly to library staff for wages, salaries, or benefits, or to cover things such as moving expenses or course fees. **Do not include expenditures for municipal employees** even if they are doing work for or on behalf of the library board – report those expenditures on line x.

Any funds paid by the municipality directly to service providers for the cost of janitorial, maintenance or repair services. Also include any supplies purchased directly by the municipality for library use.

If a municipal employee spends a portion of their working time on library business, e.g. doing payroll, report the associated staffing cost to the municipality.

xi. Debenture interest and principal

Any funds paid by the municipality on behalf of the library board for interest or principal on a debenture.

xii. Capital or special grants (e.g. one-time grants. DO NOT include annual operating cash transfer)

Any grants given by the municipality to the library board for capital expenditures, or given as a special grant for specific projects or purchases. This amount does not include the annual local appropriation given to the library board for the operation of the library.

XIII. TOTAL OTHER EXPENDITURES PAID BY MUNICIPALITY (add lines i. to I.)

Total of lines x. to xii. (if you are using the Excel document, this figure will calculate automatically).

Authorization

When completing the authorization section of the Direct Payments form, please use the legal name of the library board. The legal name of the board is set out in the *Libraries Act*, 3(4): “On being established, the municipal library board is a corporation and shall be known as “The (name of municipality) Library Board”. Therefore, the Town of Springfield’s library board’s legal name is The Town of Springfield Library Board.

Budget

This form reports the budget approved by your library board for the current operating year. You will want to use your previous year's financial report, or Statement of Receipts and Disbursements for information. **Instructions for the budget form are the same as for the Statement of Receipts and Disbursements except that the figures are estimates.** The categories on the two forms are the same so that the figures for the two years can be compared.

If the information is not available on the current year's provincial grants (line 08), base this figure on the previous year's grant amount. All other budget figures are based on figures developed by the board with assistance from the library manager.

Conclusion

When these forms have been completed, forward them, along with your operating grant application form, to PLSB using the contact information provided. Keep a copy for your own files.
