

Obtaining Permits for Overweight and Over-dimensional Vehicles

All basic permits (overweight, overdimension and licensing) are processed through an automated permit system (TRAVIS). Carriers have the option of entering their permit applications directly on TRAVIS using the Web or using a TRAVIS Agent to input the permit application data. Agents are accessible by phone or fax. TRAVIS Agent contact list is attached.

The primary role of the Central Permit Office is to provide permit approvals, user information, and TRAVIS support. A small number of specialized permit types, such as vehicle exemption permits will continue to be handled directly by the permit office.

The provincial permit fee can be paid via credit card (VISA or MasterCard), on account, or via cheque. TRAVIS Agents are private entities and, therefore, charge a fee for their service separate from the provincial permit fee. As not all TRAVIS Agents accept credit cards, carriers are advised to make prior arrangements with respect to their fees.

For more information, contact the Central Permit Office at 1-800-662-7138.

Web Enabled Permits

- must be **submitted over the internet**, either by the carrier or through a TRAVIS agent.
