NSC Number: AB000-0000

Profile Period Start: 2019 MAR 01

End: 2023 FEB 28

NOTE

The "Carrier Profile" includes a history of convictions, administrative penalties, inspections, and collisions provided to Alberta Transportation and Economic Corridors by law enforcement and other government agencies. Other information such as inspection facility certifications, audits, and notices documenting violations may also be included. The Carrier Profile is used to identify carriers that pose an unacceptable risk to the public. Information contained in the Carrier Profile will be considered when establishing a carriers safety fitness rating.

Carriers are encouraged to obtain and review their Carrier Profile regularly to help evaluate the effectiveness of their safety and maintenance programs, and take proactive action to rectify safety and compliance issues.

The actual description and coding of events are worded using criteria set by the Canadian Council of Motor Transport Administrators(CCMTA) and therefore may not be the same wording that appears on law enforcement documentation.

The carrier current compliance standing can be found in "Part 1 - Carrier Information". This will always reflect events that have occurred in the previous 12 months from the printed date regardless of the Profile Period Start and End Date.

All reasonable efforts have been taken to ensure the accuracy of the information in this report. If any information shown in the carrier profile is in question, the carrier should consult their records to verify any concerns. If there are data inaccuracies or inconsistencies, contact Alberta Transportation and Economic Corridors at (403) 755-6111 or by email to compliance.info@gov.ab.ca.

An Education Manual is available to assist carriers to better understand the transportation requirements to support compliance to transportation safety legislation. The Education Manual and other information regarding Alberta's National Safety Code (NSC) program can be viewed on the internet at <https://www.alberta.ca/education-manual-for-commercial-carriers.aspx>

CONVICTION NOTE

The information recorded in this Part reflects convictions. A "conviction" is an offence that has resulted in a conviction being registered in the courts. Events are shown in order of offence date, with the most recent date shown first.

Points ranging from 0 - 5 are assigned to a conviction depending on the severity of the offence, 5 being the most serious offence. As an example:

- Faulty lights, not resulting in out-of-service 1 point
- Speed, 21-30 km/hr over posted limit 2 points
- No permit or contravene conditions on permit 3 points
- Drive while disqualified 5 points

Conviction points, Administrative Penalty points, CVSA Failure Rate, Collision points over a 12 month period, and the carrier's average fleet size over a 24 month period are used to establish the carriers Risk Factor score (R-Factor). Alberta Transportation and Economic Corridors will intervene with those carriers with an unacceptable R-Factor score.

Events will stay on the carrier profile report for 12 months from the conviction date, not the event date.

PART 3 - ADMINISTRATIVE PENALTY INFORMATION

NSC Number: AB000-0000

Carrier Name: Example Transport Ltd

Profile Period Start Date: 2019 MAR 01

Profile Period End Date: 2023 FEB 28

Date Printed: 2023 FEB 28

TOTALS:	ADMINISTRATIVE PENALTIES:	1
	ACTIVE POINTS:	0

ADMINISTRATIVE PENALTY NOTE

The information recorded in this Part reflects administrative penalties, as issued under Alberta's Provincial Administrative Penalties Act.

An "administrative penalty" includes a fine and any other administrative consequence, including, without limitation, a sanction, restriction, prohibition, requirement, condition, suspension, disqualification or cancellation imposed on a person for contravention of a prescribed enactment, but does not include imprisonment.

An "administrative penalty" includes, without limitation,

- a failure to comply with a restriction, prohibition, requirement, rule, direction, order, term or condition imposed by or under a prescribed enactment,
- conduct that is subject to sanction under a prescribed enactment, and
- any other action prescribed as a contravention under the Provincial Administrative Penalties Act.

As of December 1, 2020, Alberta's impaired driving laws were strengthened with the introduction of the Immediate Roadside Sanctions (IRS) program that includes serious, immediate and escalating consequences for impaired drivers.

- As part of the Immediate Roadside Sanction (IRS) program, Alberta has strengthened its impaired driving laws.
- A new administrative penalty for commercial drivers has been introduced, IRS Zero Commercial, which takes a zero tolerance approach to drugs and alcohol for drivers who are operating a commercial vehicle.
- For purposes of section 88.02(1) of the Traffic Safety Act and issuance of the IRS Zero Commercial penalty, "operating a commercial vehicle" means operating a:
 - a. commercial vehicle or combination of commercial vehicles that is registered for a gross weight of more than 11 794 kilograms, or
 - b. commercial vehicle that has a manufacturer's seating capacity originally designed for 11 or more passengers, including the driver.

As of June 2022 month-end carrier monitoring, administrative penalties issued for impaired driving charges are included in the Risk Factor score (R-Factor).

PART 3 - ADMINISTRATIVE PENALTY INFORMATION

NSC Number: AB000-0000

Carrier Name: Example Transport Ltd

Events are shown in order of 'Issuance Date', with the most recent date shown first. Points ranging from 0 - 5 are assigned to an administrative penalty, depending on the severity of the offence, 5 being the most serious offence.

As an example: Drive while impaired 5 points

Conviction points, Administrative Penalty points, CVSA Failure Rate, Collision points over a 12 month period, and the carrier's average fleet size over a 24 month period are used to establish the carrier's Risk Factor score (R-Factor). Alberta Transportation and Economic Corridors will intervene with those carriers with an unacceptable R-Factor score. Events will stay on the carrier profile report for 12 months from the issuance date, not the event date.

CVSA INSPECTION NOTE

The information recorded in this Part reflects all Levels of inspections conducted by law enforcement agencies under the Commercial Vehicle Safety Alliance (CVSA) program. All levels of CVSA inspections (1 through 5) will be used to determine the carrier's out-of-service rate.

- Level 1 - is a complete inspection of vehicle and driver
- Level 2 - a walk around inspection of vehicle and driver
- Level 3 - is a driver inspection only
- Level 4 - is a one time examination of a particular item
- Level 5 - is a complete inspection of the vehicle only

A CVSA inspection will result in one of the following:

- Pass- no CVSA defect(s) found, decal issued
- Requires attention- defects found, none were out of service, no decal issued
- Out-of-Service- one or more out-of-service defects found, no decal issued

On Part 4 - CVSA Inspection Detail, Out Of Service defects (shown as an "O" on a CVSA Inspection Form) and Requires Attention defects (shown as an "X" on a CVSA Inspection Form) will be displayed separately. The number of defects detected will be displayed under the vehicle number and across from the defect category / description.

Conviction points, Administrative Penalty points, CVSA Failure Rate, Collision points over a 12 month period, and the carrier's average fleet size over a 24 month period are used to establish the carrier's Risk Factor score (R-Factor). Alberta Transportation and Economic Corridors will intervene with those carriers with an unacceptable R-Factor score.

CVSA Failure Rate is calculated as ratio of combined Out-of-Service inspection number with quarter of Required Attention inspection number to total number of CVSA inspections.

Property Damage:	697	72	625	0
Injury:	93	15	78	0
Fatal:	0	0	0	0

COLLISION NOTE

The information in this Part is based on collisions considered "reportable" by the jurisdiction in which they occurred. Collisions are displayed in the order in which they occurred with the most recent date shown first. Points will be assigned to each collision depending on the collision severity. The highest appropriate point value will be assigned to each collision.

- Property Damage 2 points
- Personal Injury 4 points
- Fatality 6 points

Conviction points, Administrative Penalty points, CVSA Failure Rate, Collision points over a 12 month period, and the carrier's average fleet size over a 24 month period are used to establish the carrier's Risk Factor score (R-Factor). Alberta Transportation and Economic Corridors will intervene with those carriers with an unacceptable R-Factor score.

Where a carrier has requested a collision review and the collision was determined to be "supported", the points will be removed from the Carrier Profile and the event will not be considered in determining the carrier's R-Factor score.

All reportable collisions appear on the profile as "not supported/not reviewed" with the appropriate corresponding point value unless determined to be "supported" through the collision review program. For information on how to apply for a collision review click on the following link: <https://www.alberta.ca/collision-evaluations.aspx>. MONITORING NOTE

Alberta Transportation and Economic Corridors considers conviction, administrative penalty, CVSA inspection, collision and audit information when determining a carriers safety fitness rating.

Through the Carrier Profile system, conviction, administrative penalty, CVSA inspection and collision information is analyzed and combined to determine a carriers Risk Factor score (R-Factor). Each area's contribution to the R-Factor can be viewed on the "Monitoring Summary" page.

Alberta's National Safety Code monitoring program is designed to identify and intervene with 5% of bus and truck carriers that have the worst R-Factor. In establishing which 5% of carriers make up the department's monitoring list, fleet type (bus or truck) and fleet size are considered. Using this method carriers are compared with others that have similar fleet types and fleet ranges.

Once on the department's monitoring list, the carriers R-Factor score is further evaluated to determine what monitoring stage they are at. Monitoring stages 1 through 4 have been established, 4 being the stage that represents the greatest risk to the public. Alberta Transportation and Economic Corridors will intervene in a progressive manner with carriers on the monitoring list in an effort to create positive change within their operation.

The monthly compliance data shown in the Monitoring Part is only for the months between the Profile Period Start and End Dates. Carriers may find it valuable to review this page to establish if the contributions of the convictions, administrative penalties, CVSA inspections and collisions to the R-Factor score are rising, declining or staying the same. This type of information may assist carriers in evaluating the effectiveness of their safety and maintenance programs.

AUDIT INFORMATION NOTE

Part 8 includes data on facility audits that are complete and accepted by Alberta Transportation and Economic Corridors. In accordance with National Safety Code Standard 15, a facility audit is designed to review a carrier's on-highway and safety management activities in considerable detail. During a facility audit, a Public Safety Investigator or a certified Third Party Auditor examines the carrier's records and reports on demonstrated compliance with the safety standards of the National Safety Code program, and its related legislation as implemented in Alberta.

The facility audit report provides Alberta Transportation and Economic Corridors with an understanding of the carrier's degree of compliance. In conjunction with a facility audit report, each carrier's Safety Fitness Rating is evaluated through a review of the following:

- convictions
- administrative penalties
- collisions
- Commercial Vehicle Safety Alliance inspections

For more information on audits, investigations, complaints and interventions actions, go to:

SAFETY FITNESS CERTIFICATE SUSPENSION NOTE

Certificate suspensions, if any, will be shown. Where the description is "Suspended", the suspension remains in effect. Where the description is "Suspension", the suspension has been lifted as of the Expiry Date.

SAFETY RATING NOTE

The information in this part relates to one or more Safety Fitness Ratings that were issued during the period for which the Profile was requested.

All carriers operating National Safety Code (NSC) vehicles are issued a certificate that shows their Safety Fitness Rating. There are 5 ratings that could be assigned:

- Excellent,
- Satisfactory,
- Satisfactory Unaudited,
- Conditional, and
- Unsatisfactory.

Carriers with an Unsatisfactory rating are not permitted to operate NSC commercial vehicles in Alberta.

Ratings are assigned under the authority of the Registrar and are determined using on-road performance and audit results.

OPERATING STATUS NOTE

The Operating Status (OS) assigned to a carrier specifies what jurisdictions they may operate in, and what type of vehicles and drivers that will be monitored under Alberta's National Safety Code Program. The two types of OS are:

- "Provincial" authorizes a carrier to operate only point-to-point in Alberta. A carrier with this OS may NOT leave the province.
- "Federal" authorizes a carrier to operate anywhere in Canada. (Point-to-point within Canada or to/from the US border).

Carriers must ensure that they operate under the proper OS. Carriers found operating in or outside of Alberta without the proper OS may be charged with an offence, be issued an administrative penalty, and have their vehicle detained. Refer to Alberta Transportation and Economic Corridors' Website for more information.
