

ARLO - Downloading Cemetery Information

September 2026 release - reference guide

This **reference guide** provides an overview of new and enhanced map features introduced in the **Alberta Registry for Land Online (ARLO)** September 2026 release. It helps users understand **how to search and download cemetery information using the search and parcel map**, and how these functions support common tasks.

This guide is designed to support ARLO users to navigate new or updated ARLO capabilities. It is equipped with easy-to-follow instructions and helpful visual aids.

Note: the instructions and visuals contained in this reference guide are up-to-date as of the date the guide has been published. As ARLO evolves the format, look and feel of the screens, and available information may change.

Table of Contents

1. Find and download cemetery information via search land records

2. Find and download cemetery information via the ARLO parcel map

1. Find and download cemetery information via search land records

Introduction

This section of the reference guide outlines how to search, access, and download cemetery information using the convenient search tool and:

- Perform cemetery searches using available search criteria
- Preview and download basic information for cemetery sites

Instructions

From the ARLO home page, go to the Search land records section. Select **Cemeteries** as the **product type**. You will be able to view and search for cemetery sites using one of the following search types:

- **Standard ATS (Alberta Township System):** Identify cemetery sites using Alberta's township grid system. These are common for rural properties.
- **File number:** File numbers identify a specific cemetery site

- **Place Name:** Where available and applicable, the city, town, municipality or county
- **Cemetery Name:** Where applicable, the legal or registered name of the cemetery site
- **Plan, Block, Lot:** variations of the ATS format, commonly used for older, historic, or irregular parcels of land

2. Find and download cemetery information via the ARLO parcel map

Introduction

This section outlines how to access the ARLO parcel map and use it to search for cemeteries, including how to:

- Access and navigate the map
- Search for a cemetery site using the Product search
- Understand the search results
- Interact with cemeteries on the map
- View and download cemetery records

Additional instructions and examples can be found within the [ARLO help centre](#)

Instructions

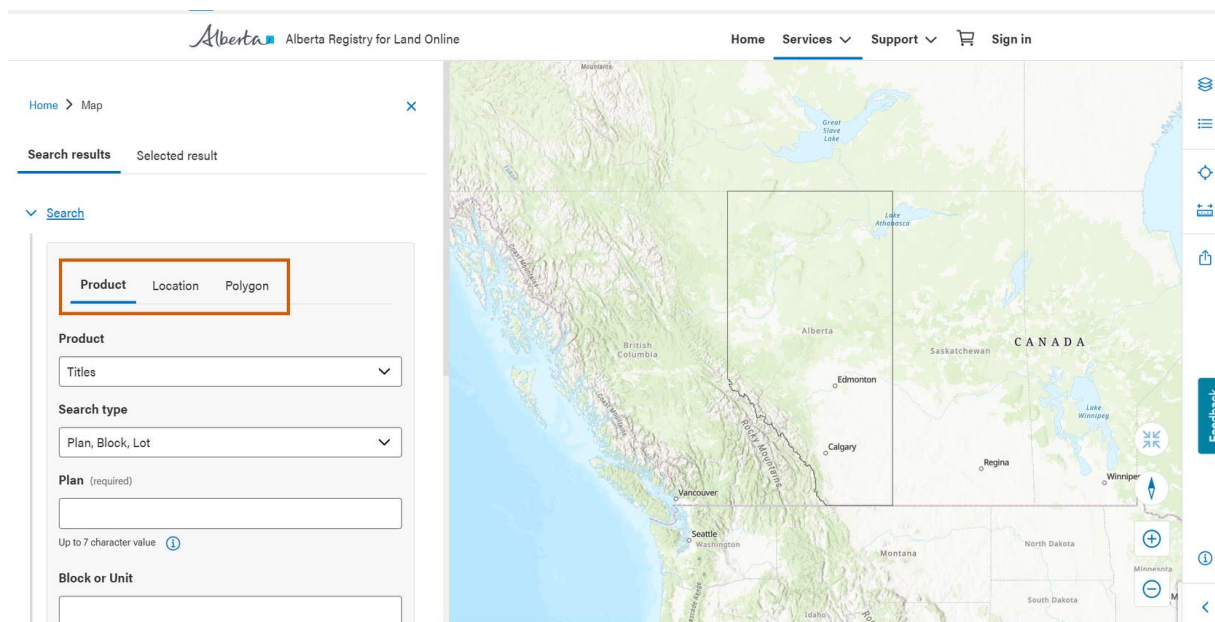

From the ARLO menu, select **Services**, then select **Map**.

Within the search section on the left side of the screen, select one of the following tabs to complete a search:

- **Product:** Search directly for the product you wish to find
- **Location:** Zoom to an area on the map
- **Polygon:** Draw a shape on the map to return products with that area (AS

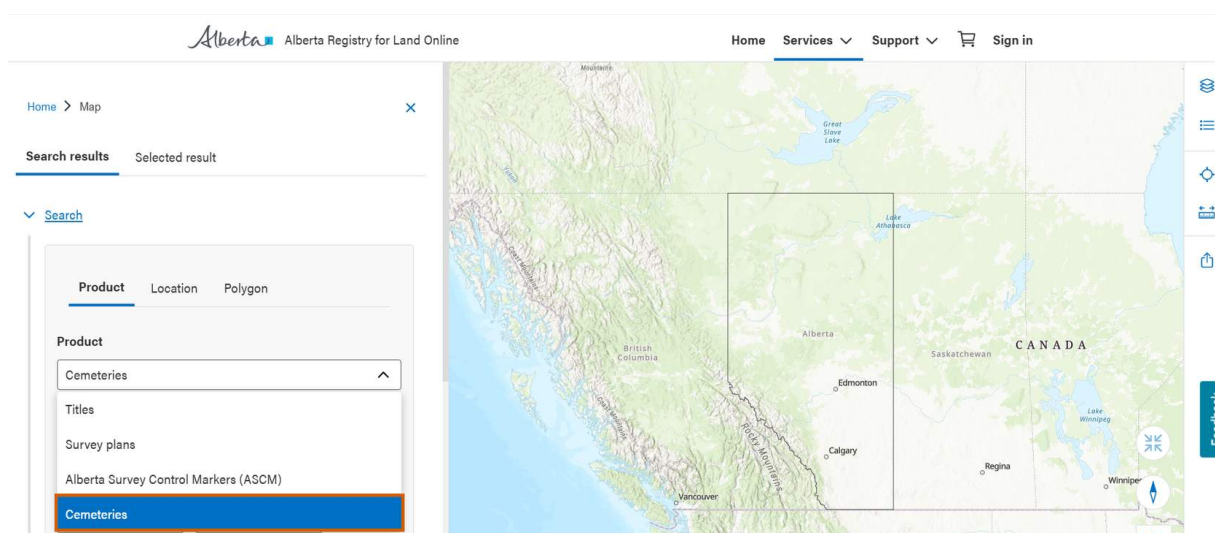

Note: **Product** search is selected by default. For information on how to search by Location or Polygon, see the **Find title via the ARLO parcel map** section in the [Purchasing Titles Reference Guide](#)

To complete a search for cemeteries by Product:

1

Select **Cemeteries** from the drop-down list under **Select product type**

2

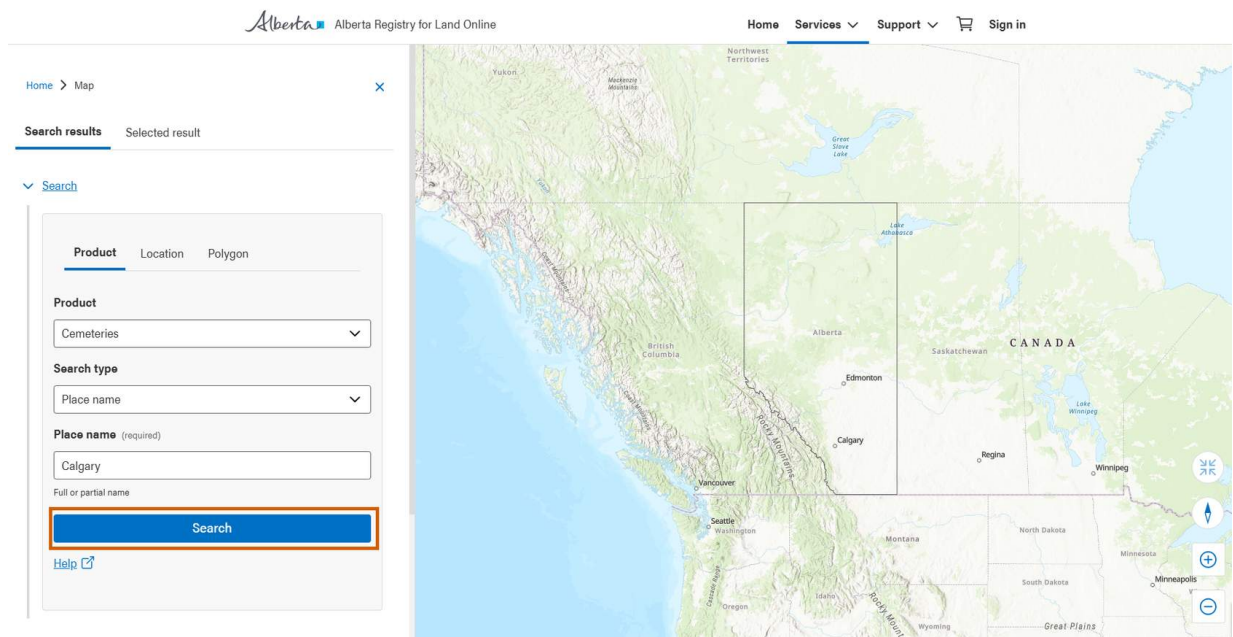

Choose a search type from the options in the drop-down menu under **Select search type**. For a definition of the available search types, please [click here](#) to go to the **Find and download cemetery information via search land records** section of this reference guide.

Note: For this guide, we will be using **Place name** as the search type.

The screenshot shows the Alberta Registry for Land Online interface. On the left, there is a sidebar with three tabs: 'Product', 'Location', and 'Polygon'. The 'Product' tab is active, showing a dropdown menu with 'Cemeteries' selected. Below this, under 'Search type', there is a dropdown menu with 'Place name' selected. Other options in the 'Search type' menu include 'ATS', 'File number', 'Cemetery name', and 'Plan, Block, Lot'. The main area of the page displays a map of Alberta and surrounding regions, including British Columbia, Saskatchewan, and parts of the United States (Washington, Oregon, Idaho, Montana, North Dakota). The map shows major cities like Vancouver, Seattle, Edmonton, and Calgary. The top navigation bar includes links for 'Home', 'Services', 'Support', and 'Sign in'. A 'Feedback' button is located on the right side of the map.

3

Once you have selected a search type, fill in the required search criteria and click **Search**

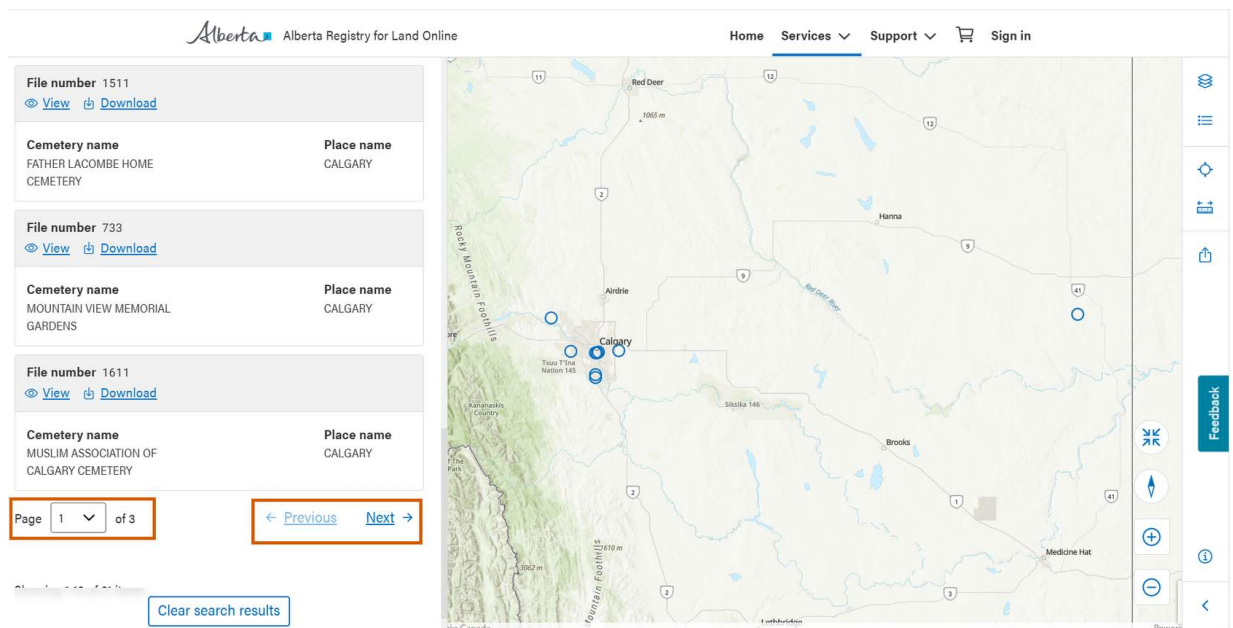

4

The map will zoom the view to display up to 10 search results on the screen at a time, results will be indicated by blue circles.

5

Use page controls to view more results and refocus the map accordingly

The cemetery search results will appear with the following details displayed:

- **File Number:** A unique identifier assigned when to each cemetery sites
- **Cemetery Name:** Where applicable, the legal or registered name of the cemetery site
- **Place Name:** The local place name where available including city, town, municipality, or country name.

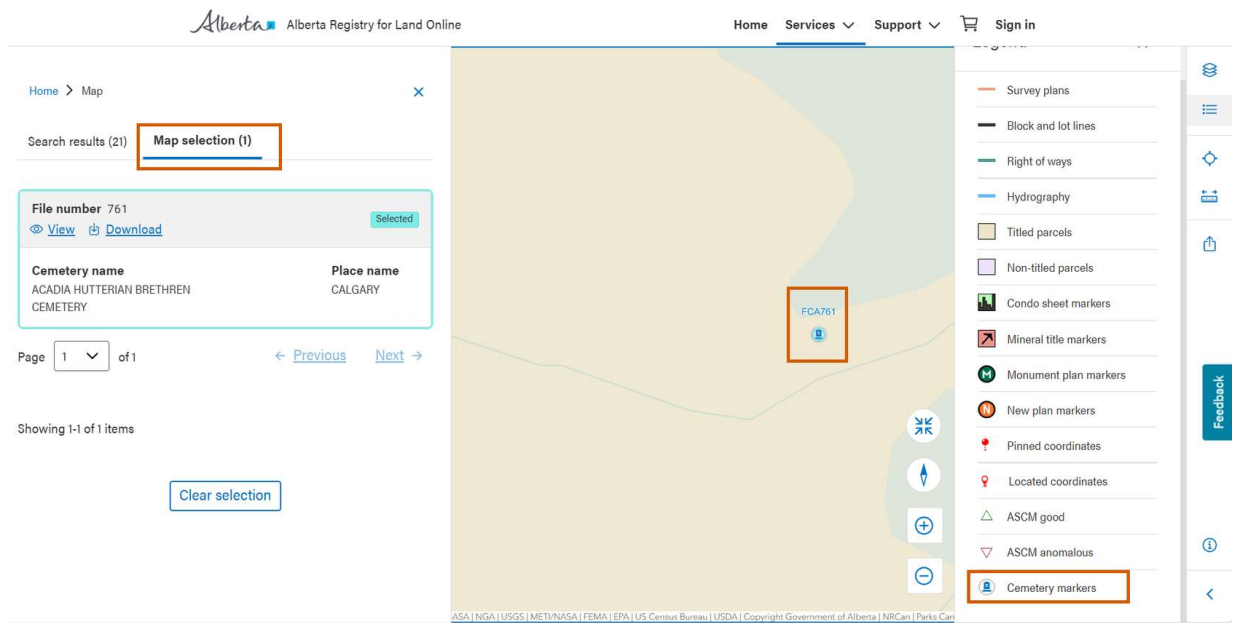

Note: some cemetery records may not appear on the parcel map if the location information is unavailable. Search results will be marked as Location Unavailable where the location of the cemetery is either not in the database or not permitted to be shared.

For more information on the different information types, please see

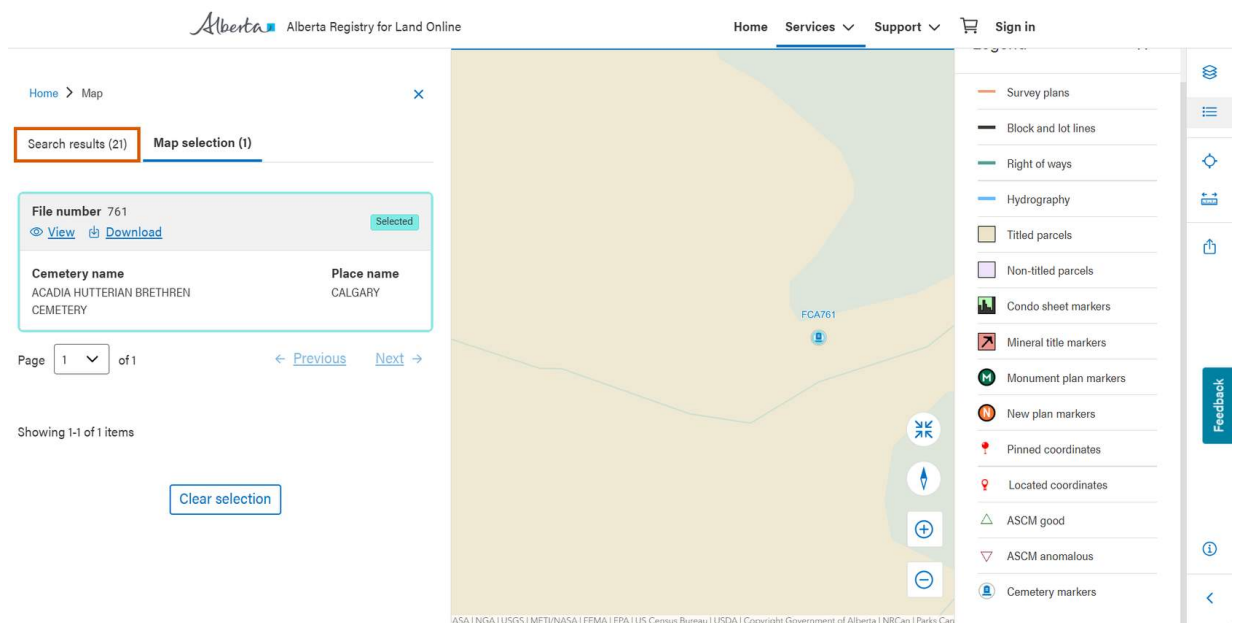

[Understanding cemetery record search results.](#)

6

To select a cemetery and zoom in on its location, click on the search result you would like to select. **Note:** When the map zooms in on the selected location, the blue circle will include a cemetery marker to indicate the approximate location of the cemetery.

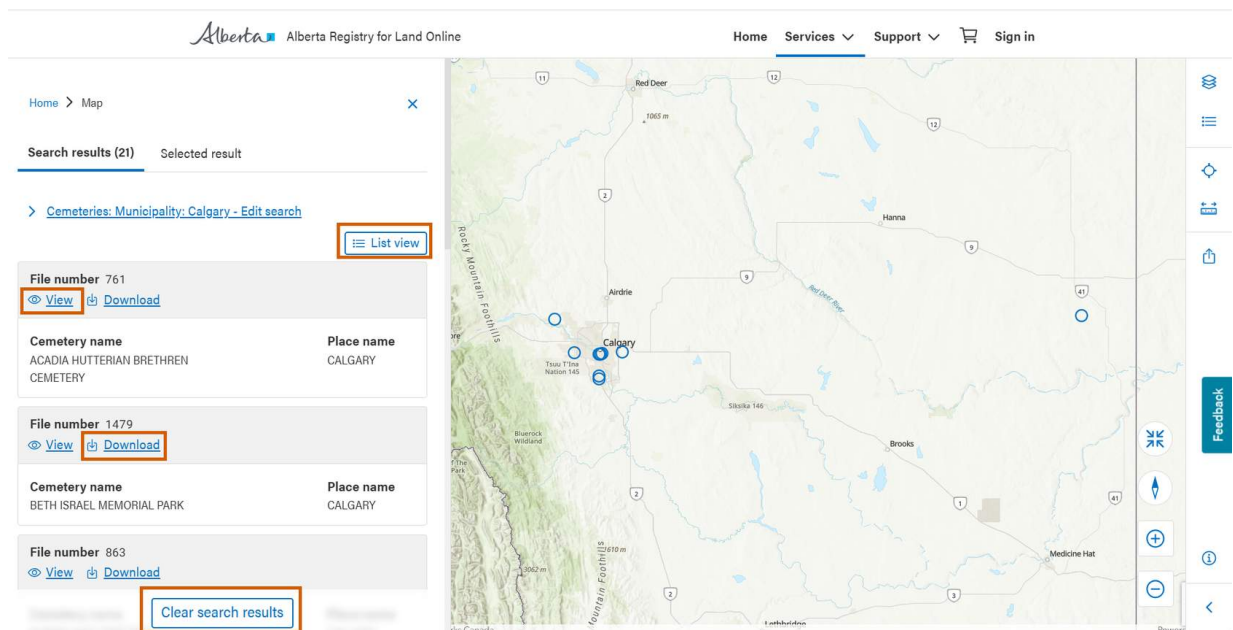

To return to the list of search results, select **Search results**

7

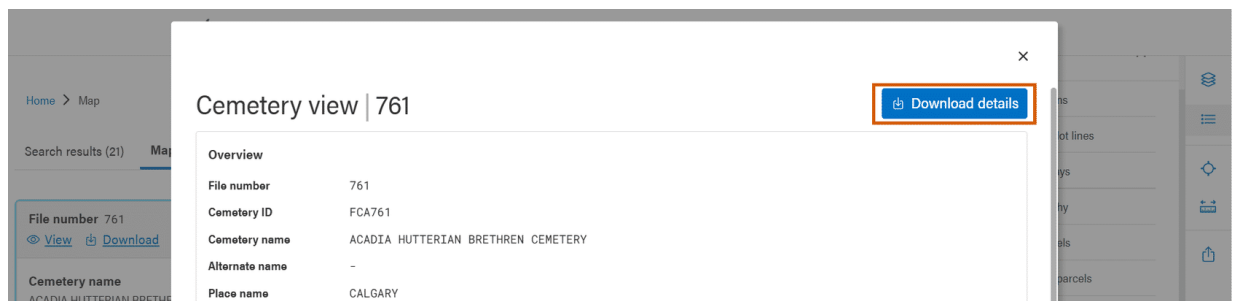

From here you can:

- Select **Download** to download the cemetery record
- Select **View** to preview the cemetery information
- Select **List view** to review the search results without the map view
- Clear search results

8

If you would like to download the cemetery record after previewing the cemetery information, select **Download details** in the top-right corner of the preview window. Cemetery records are free to download.
