September 2026 release - reference guide

This **reference guide** provides an overview of new and enhanced features introduced in the **Alberta Registry for Land Online (ARLO)** September 2026 release.

This guide is designed to support ARLO users to navigate new or updated ARLO capabilities. It is equipped with easy-to-follow instructions and helpful visual aids.

Searching and purchasing cancelled titles overview

This Reference Guide outlines how to search and purchase cancelled titles utilizing the **search and parcel map** function.

The guide is split up into the following sections:

1. Searching for cancelled titles using the search function and the ARLO parcel map
2. Purchasing cancelled titles via credit card and charge account

Note: the instructions and visuals contained in this reference guide are up-to-date as of the date the guide has been published. As ARLO evolves the format, look and feel of the screens, and available information may change.

1. Understanding cancelled titles

Introduction

A cancelled title is a record of a land title that is no longer active and has been replaced by a new title record. When a title is cancelled it remains in the land titles register as a historical record, representing the state of the parcel of land related to that title at the point in time when the title was cancelled.

Refer to the following article to find out more about cancelled titles and how a cancelled title compares to an active title: [Cancelled titles overview](#)

[Click here to return to the table of contents](#)

2. Find cancelled titles via search land records

Introduction

This section outlines how to search, access, and purchase cancelled titles using the search tool and be able to:

- Perform searches for cancelled titles, cancelled non-patent sheets, and cancelled condominium sheets using available search criteria
- Preview cancelled titles before purchasing
- Add current and historical titles to your cart to purchase

Instructions

You can view and search for cancelled titles, cancelled non-patent sheets, and cancelled condominium sheets using the search land records function. There are two primary search types available to search for a cancelled title:

- Title number
- Cancelled title

In using other search types under the titles product, the search results may include:

- Only cancelled titles
- Only current titles
- A combination of cancelled and current titles

For example, searching by LINC number or Plan/Block/Lot may return only cancelled titles if no current titles are available. If there are duplicate titles (North/South), both the current and cancelled titles may be displayed.

Search using the title number

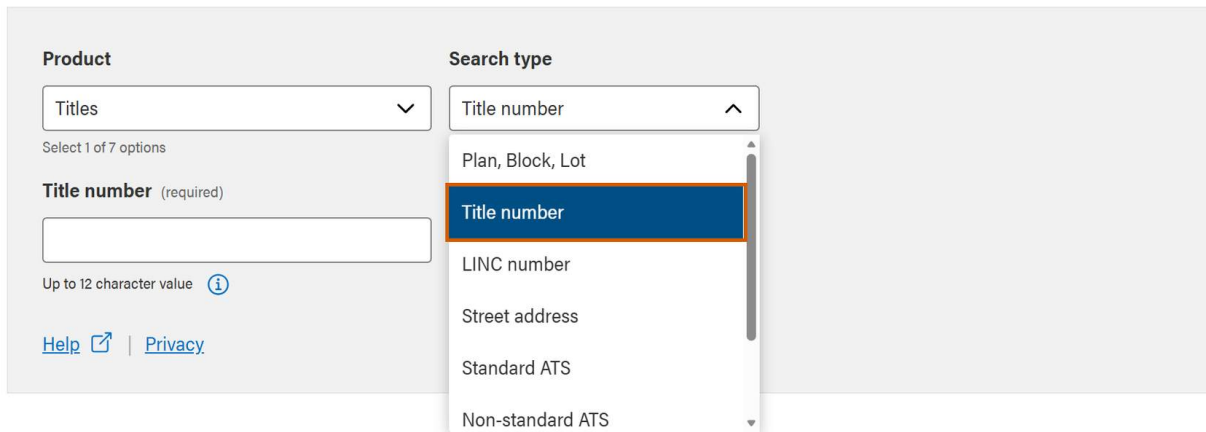

If you already know the title number of the cancelled title you want to find **and** you want to find a specific cancelled title, rather than view a parcel's complete history, search using the title number.

To use this search method:

- 1 From the ARLO home page, navigate to **Search land records** and select **Titles** as the product
- 2 Select **Title number** as the search type and enter the title number of the cancelled title

Search land records

Use the search tool to find land titles, survey plans, and registered documents. Results may include ownership information, registrations, and other property details.

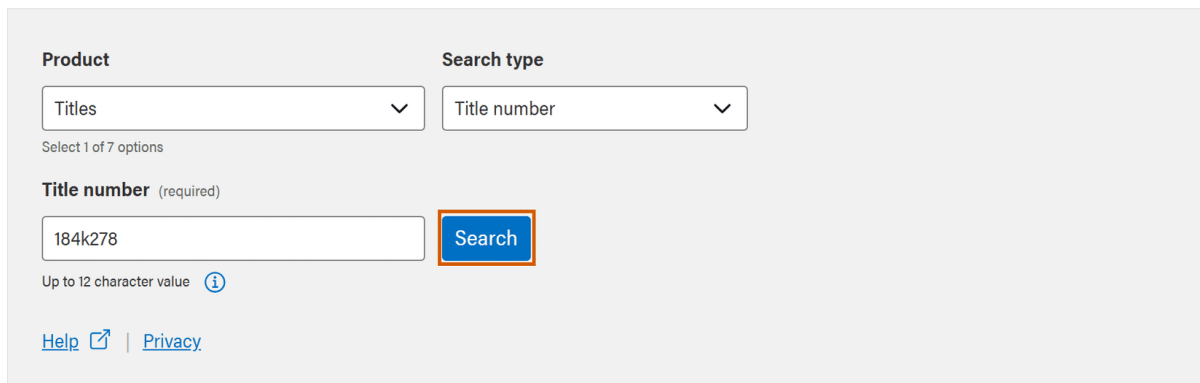

The screenshot shows the search tool interface. On the left, under the 'Product' section, there is a dropdown menu currently set to 'Titles' with a downward arrow. Below it, text indicates 'Select 1 of 7 options'. Under the 'Title number' section, which is marked as '(required)', there is an empty text input field. Below the input field, text indicates 'Up to 12 character value' followed by an information icon. At the bottom left are links for 'Help' and 'Privacy'. On the right, under the 'Search type' section, there is a dropdown menu currently set to 'Title number' with an upward arrow. This dropdown menu is open, showing a list of options: 'Plan, Block, Lot', 'Title number' (which is highlighted with a blue background and an orange border), 'LINC number', 'Street address', 'Standard ATS', and 'Non-standard ATS'.

3

Click **Search**

Search land records

On the right, under the 'Search type' section, there is a dropdown menu currently set to 'Title number' with a downward arrow. To the right of the input field and below the dropdown menu is a blue 'Search' button with a white border, which is highlighted with an orange border.
