"Premier Welcomes End of Pandemic in New Year: Premier's Speech:"

"When I was a young child, my family and I were very concerned about our children's health. However, as we have grown, we have come to appreciate the many contributions that our children have made to society."

"When my children were young, we were very concerned about their health. However, as they have grown, we have come to appreciate the many contributions that they have made to society."

"When I was a young child, my family and I were very concerned about our children's health. However, as we have grown, we have come to appreciate the many contributions that our children have made to society."
