The government of Alberta announces that it will impose a 1 per cent tax on the government of Canada for the year 2024.

Premier Danielle Smith today announced that the government of Alberta will impose a 1 per cent tax on the government of Canada for the year 2024. This tax will be imposed in response to the federal government's decision to impose a 1 per cent tax on the province of Alberta for the year 2024.

"We are taking this action to ensure that our province is not burdened by the federal government's actions," Premier Smith said. "This tax will help to ensure that our province remains competitive and that our citizens receive the services they need and deserve."
