

Care-First Auto Insurance

A Comparison of Accident Benefits

Initially, benefits under the Care-First system will be set at the levels in place in Manitoba at that time. One exception is the income replacement benefit which will be based on annual income, and is intentionally set at \$5,000 greater than Manitoba's, to acknowledge higher average incomes in Alberta.

Post-implementation, Care-First benefits will be indexed annually for inflation, with the process described in the *Alberta Personal Income Tax Act*.

The table below outlines the benefits which will be standard under any Care-First auto insurance policy. An insurance company may offer higher levels of coverage through endorsements to the standard policy.
