

Water for Life (W4L)

Eligibility guidelines schematic – Regional water projects

Legend

- Raw water lines
- Treated water lines
- Eligible projects are within dashed lines
- PD Point of delivery
- W4L Water for Life (<https://www.alberta.ca/water-life-program>)
- AMWWP Alberta Municipal Water Wastewater Partnership (<https://www.alberta.ca/amwwp-apply>)

Notes:

1. Eligible projects are those that carry 100% of the flow as indicated within dashed lines.
2. Water transmission lines are eligible up to the point of delivery to the eligible community's water system.
3. Refer to Water for Life and AMWWP website for a complete list of eligible projects, and applicants.
4. Water distribution systems are not eligible for funding.
5. Treated water reservoirs are not eligible under W4L; however, they are eligible under AMWWP. Refer to the AMWWP website (<https://www.alberta.ca/amwwp-apply>).
6. Upgrades to existing regional water systems are eligible on a weighted rate using AMWWP formulas.
7. As each project is unique, applicants should consult the corresponding TEC regional office.
