

Infrastructure Technical Resources Newsletter

August 31st, 2023 – Volume 22

**** Important update ****

Alberta.ca moved to a new content management system in August 2023. As a result of this move, any documents or websites that have links to **documents** on Infrastructure Technical Resources (ITR) may not work correctly and show a "Page not found" screen. While we fix the issues, you can still get to the documents through the "Quick Fix" listed below.

Links directly to documents on Infrastructure Technical Resources (ITR) website for downloading are working and can be accessed using the following link:
